Elks Will Have About \$1,000 For Christmas Cheer As Result Of Splendid Three Day Carnival

K. W. Kinnard Announces Full Christmas Stocking In All Needy Homes

The third annual Elks' Carnival was brought to a conclusion at the rink Tuesday evening with the announcement by K. W. Kinnard, chairman of the superintending committee, that a full Christmas stocking would be assured every Vernon home in need this year. The entertainment continued throughout Saturday, Monday and Tuesday evenings.

While gross receipts are estimated to have been \$500 less than last year, no doubt in consequence of depressed conditions, a rough preliminary estimate as to net proceeds is set at \$1,000, every penny of which, according to the Brother Bill's executive, will be disposed of in charitable channels.

A feature of the conclusion of the three-day carnival was the announcement of the winners in the popularity contest, estimated to have netted about \$500 for the Christmas cheer fund, and of the special raffle prizes.

With 30,300 votes to her credit Miss Hazel White, of the Vernon Fruit Union staff, won the popularity contest as Miss Delicious. Miss Catherine Bigland, of Miss Entomologist, was second; Miss Margaret Wakefield, of Miss General Delivery, third; and Miss Mary Mutas, of Miss Dry Cleaners, fourth. The first three winners received \$100, \$50, and \$40 respectively.

The beautiful Rogers radio was won by W. F. Van Antwerp, of Okanagan Landing. Mrs. V. H. Pierce, of Lumby, was the holder of the second prize lucky ticket, entitling her to \$75 worth of merchandise at the Hudson's Bay Company store, and William Franklin, of Vernon, the third prize ticket, with the right to receive \$40 worth of merchandise from the Okanagan Grocery.

All the old army games were back in full force at the frolic. House-house, as in the past, was the prime favorite. The "crown and anchor" pastime had a large following, however, as well as the familiar spinning devices.

In addition there were many novel and interesting features, and the stand dispensing hot dogs was the complementing touch.

There were not as many booths arranged as on the occasion of the two former carnivals, but a new departure was the form of four commercial displays.

In concluding remarks before the crowd on Tuesday evening, Mr. Kinnard thanked the people of Vernon for their generous support and made special mention of the assistance given by Baroness Herby who offered her services in palatry, and of members of the Kinsmen Club, who helped by operating booths.

Mr. Kinnard, chairman of the general carnival committee, was assisted by Mayor E. W. Prowse and J. G. West, while the sub-committee superintending the popularity contest consisted of H. W. Galbraith, chairman, A. E. Berry, and W. W. Darroch.

MORE FISH EGGS ARE IMPORTED TO PROVINCIAL WATERS

Than Are Exported During the Same Year Is Report From Deputy Minister

At the convention of the British Columbia Fish and Game Protective Association in Kelowna last June a resolution was adopted recommending the practice of the government in exporting fish eggs from British Columbia.

That the information leading to the adoption of such a resolution was inaccurate is the statement of William A. Found, in a letter to Dr. E. W. Prowse, of this city, president of the British Columbia Fish and Game Protective Association.

Mr. Found is Deputy Minister of Fisheries and his letter states: "In the operation of the fish and cultural service, certain exchanges of eggs between the different provinces and between Canada and other countries are essential, but in such exchanges and transfers British Columbia has always received a large number than were sent out of the province."

"The total British Columbia importation and exportation of the eggs of game fish during the last six years are as follows: 1927, 1,000,000 imported, all exported; 1928, 1,200,000 imported, 115,000 exported; 1929, 500,245 imported, 100,000 exported; 1930, 748,297 imported, 200,000 exported; 1931, 497,497 imported, 100,000 exported; 1932, 924,904 imported, 125,000 exported."

"In addition to the above the following quantities of whitefish eggs were sent to British Columbia from the provinces: 1929, 500,000; 1930, 5,000,000; 1931, 1,000,000."

At the convention in Kelowna delegates from Kamloops pointed out that certain lakes in their vicinity had been depleted in fish cultural service, and at the same time stressed the fact that British Columbia fish were being exported to Trans-Pacific countries and to the Mississippi River valley.

BARNSTORMING IN OKANAGAN VALLEY

"Ginger" Coote, of Chilliwack, Has Five Passenger Plane Here Week End

"Ginger" Coote, of Chilliwack, in his Ryan 5-passenger cabin plane, was barnstorming in Vernon throughout last Saturday and Sunday.

This CP-ATA has been frequently seen of late over many other points in the valley, as a consequence to the two months "special" privilege which has been granted aviationists to operate from unlicensed airports.

New President

J. T. MUTRIE Chosen by Council to Complete Term as President Board of Trade

The Board of Trade has elected J. T. Mutrie as its new president, succeeding G. O. Nesbitt, who has resigned.

The election took place at a meeting of the board held on Friday evening at the hotel.

Mr. Mutrie was elected by a vote of 10 to 2.

He was thanked for his past services.

Mr. Mutrie is a well-known businessman.

He has been a member of the board for several years.

He is now president of the board.

He will continue to serve the board.

Jury Asks For License Refusal

After Inquiring Into the Death of "Gerry" Little Recommends That Any Person Who Kills or Injures Another While Hunting Be Refused the Ordinary Fire Arms License

Following a twice adjourned inquest pertaining to the death of Charles "Gerry" Little, 26-year-old son of Mr. and Mrs. C. W. Little, who succumbed early last Saturday morning in the Vernon Jubilee Hospital to the effects of a gun-shot wound in the thigh which he received when the shot-gun of Ivor Ward was accidentally discharged on the preceding Wednesday evening while the two were out hunting, a jury on Tuesday afternoon presented the following verdict, in part, to Coroner O. Morris:

"We find that the deceased came to his death from the effects of gunshot wounds accidentally discharged from a shot-gun in the hands of one, Ivor Ward, of Vernon."

"In our opinion more care could have been exercised and we would recommend that any person who kills or injures another person while hunting be refused the ordinary firearms license for all time."

Before the Coroner, on Monday morning, Ward recounted the details of the hunting expedition during which the unfortunate accident occurred.

At 4 o'clock on Wednesday afternoon, he explained, he and Little drove to Goose Lake. After about half an hour spent there and in fields nearby, they returned to the Kamloops road, and proceeded farther north.

Noticing geese they decided to creep along an irrigation ditch north of the L. and A. ranch, so as not to be seen. With Little in advance they followed this ditch until close to the geese. Then Little cautiously raised his head above the reeds and stated that the birds were close at hand.

At that time, according to Ward's explanation, the both of them were stooped far over. They were carrying their guns across their bodies, the barrels pointed toward the left. The geese were on the right of the ditch, and when Little told Ward that the birds were nearby the latter turned his body to the right, preparing to raise his head carefully above the protecting cover of swamp grass and rushes to spot the geese.

In doing so, he stated, his gun was discharged, striking Little in the thigh at the distance of five feet.

Ward explained that his gun was a double-barreled hammer shotgun. It had been loaded, but was not cocked. Questioned by the jury, Ward reiterated emphatically his statement that the gun was not cocked. "It was never cocked from the time we left Goose Lake," he declared.

He stated that he had had six years' hunting experience and that he made it a practice even when he was waiting for birds with a cocked gun, to observe the precaution of keeping the gun broken until the moment he was ready to fire.

No definite theory as to how the gun was discharged was given by Ward. He stated, however, that in twisting around the grasses might have half-

MISINFORMATION GIVEN TO BUYER LOST AN ORDER

Fairfield, Ranch At Armstrong Lost Sale Because Buyer Turned Back

The Fairfield Ranch at Armstrong has a letter which indicates that some persons in Penticton give mis-information to tourists regarding the portions of the Okanagan Valley which lie north of that city.

Mr. White told me that he came by way of the States to Penticton about three weeks ago, with the intention of going through to Armstrong to place an order for vegetables. He was told by two parties, a service station, and a camp, that he had seen all there was to see of the Okanagan, and that the roads were so bad it would not pay him to go through. Having had some bad roads over the Cascades he was about fed up and believed this misstatement, and turned back. He was not informed that he could have gone on through Vernon and Edgewood by another and more pleasant road to Banff.

I believe that such a case should be brought to the attention of the Boards of Trade in the Valley, as such things have been reported before, and now here is a case where we have the information fresh and first hand. Mr. White really believed he had seen all there was to see, and did not know till I explained to him he had missed the best drive in the Okanagan.

I am sending a copy of this to the Boards of Trade at Vernon and Kelowna, and on my return in a week or so intend to take it up.

You in this case, being the most interested party, as you have lost a sale by it, should know of it.

B.C. UNIVERSITY HONORS MARLER

VANCOUVER, B. C., Oct. 4.—Hon. H. W. Marler, Minister to Japan, was honored today with the degree of LL.D. by the University of B. C. He delivered an address stressing the importance of Canada's foreign relations and declaring that qualities of head and heart must be those of Canada's envoys to the countries of the world.

The Trouble Makers

FISHERY OFFICIAL COMING TO VALLEY TO MEET ANGLERS

Vernon Fish and Game Protective Association Holds Meeting Tuesday, Oct. 11

R. W. MacLeod, Supervisor of Fisheries, New Westminster, B. C., is coming to meet representatives of the fish and game associations in the Okanagan Valley. For this purpose he is coming into the valley.

The schedule of meetings he proposes will undoubtedly be accepted. It follows: Penticton, Tuesday, Oct. 11; Kelowna, Wednesday, Oct. 12; Vernon, Thursday, Oct. 13; Kamloops on the 14th and Kamloops on the 15th.

In order to clear the decks, Dr. Prowse, Secretary of the Vernon Fish and Game Protective Association, has called a meeting of members on Tuesday, Oct. 11, at the Board of Trade room. Though there will be other matters discussed, anything with regard to fishing will have special prominence so that the executive when it meets Mr. MacLeod on the 13th will be fully informed regarding the views of the members.

In the letter which sets the date for Mr. MacLeod's visit to valley points, it is stated that the purpose of the meeting is for "discussing any suggested changes considered necessary for inclusion in the Fishery Regulations, 1933, and other subjects of interest to anglers."

OKANAGAN FRUITS YIELD WINES NOW OFFERED PUBLIC

Kelowna Concern Places Wines On Sale In Government Liquor Stores

On October 1, eleven Government liquor stores in the province of British Columbia, had on their shelves Okay Clear and Okay Port wines. These are the wines which the Domestic Wines & By-Products Ltd., of Kelowna, is making from fruit juices.

The stores at which these wines went on sale on this date, are Vernon, Kelowna, Penticton, Kamloops, Revelstoke, Trail, Nelson, Victoria, and several stores in Vancouver.

It is hoped that the plant now operating in Kelowna will require this season about a thousand tons of apples and cherries.

Dr. Bruno Danga from Torino, Italy, wine chemist, is at the plant getting everything into first class shape. When the company wanted a man they sent to Italy for him. Under the new regime there, the government there selected Dr. Danga and sent him out. It required a special order to get him here. Though unable to speak a word of English when he landed, after a couple of months he has learned to express himself to some degree and he has on more than one occasion voiced surprise at the waste in the Okanagan Valley especially with fruits and vegetables.

He is understood to have said that with such a valley in Italy they would make it the most prosperous spot in the world.

The present output of the wines is said to be about 600 gallons a day. It is understood that the Domestic Wines & By-Products Co., has, through the Department of Trade & Commerce, an inquiry for from between fifty and sixty thousand tons of alcohol made from apples annually. This is for the purpose of making elder.

W. A. C. Bennett, of the Bennett Hardware Co., Kelowna, in Vernon on Monday, expressed the hope that the company may be able to pay as high as \$20 to \$25 the ton for apples and that ultimately the demand will be for immense quantities.

FISH LADDER BEE AT BEAVER LAKE

Sportsmen To Complete Improvements At Popular Fishing Grounds On Sunday

Next Sunday, with the assistance of the Kelowna Rod and Gun Club, a "bee" is to be held at Beaver Lake for the completion of a fish ladder and other improvements there.

During the past week sportsmen from all parts of the district have been making good catches at the lake. Dr. Lloyd A. Day and party, of Kelowna, landed 11 beauties averaging 4½ pounds. There were many five and six pounders in various catches, and two of eight pounds, hooked by A. H. DeMara and A. Clarke.

BURGLARS BLOW 2 SAFES TO GET ABOUT \$13 CASH

Police Hot On Trail Of Party Of Three—Work Is That Of Experts

Burglars blew two safes in Vernon in the early hours this morning. The safe at the Okanagan Creamery is a total wreck and the one in the Vernon Growers premises, is only slightly damaged. It is said that the men, of whom it is believed there were three, only secured about \$13 cash for their night's work and as a result the police are not on their trail.

Chief of Police Clarke states that the time of the explosion has been definitely fixed at 2:30 a.m. Shortly after that a car went south but it is believed to have doubled back again.

Entrance to the Creamery was gained through a ladder placed to the plant window. Gaining access to the plant another window was broken to get into the office. The safe-blowing was the work of experts as nothing in the Creamery office was damaged. The inside door was blown open just a few inches. The records and documents are intact and burglar insurance was carried so that the safe which is wrecked will be replaced.

The door of the safe in the Vernon Growers was not locked. This saved it. However the inner door of the safe was locked and this presented a real problem. It is more difficult to open a light inner door than a heavy outer one. Drawers were opened with a jimmy. Apparently the door was soaked to be blown. It was drilled. However it is thought the charge did not go off and two shots were fired either to set it off or to blow off the door.

It is thought that the burglars planned two other jobs but were frightened off. They had only about one and a half hours start before the police were hot on their trail.

Recently a man asked for a drink of beer at the Vernon Growers and mental note was made of him. He went to the creamery when he was frightened off two other jobs but were frightened off. They had only about one and a half hours start before the police were hot on their trail.

It is thought that the robbers are the same gang that recently operated in Kamloops.

MORE THAN HALF MCINTOSH APPLES HAVE BEEN MOVED

Splendid Reports On Shipments Which Commenced On September 12

Fifty-one per cent. of the McIntosh Red apple crop has moved to market is the report by the Cartel at the close of business on October 5. This may be regarded as some feat because the movement only commenced on September 12. When there is criticism of the prices which the cartel is securing for the growers it is well to look at the other side of the picture. What would the prices be if there was no cartel and shippers were each going their own sweet way? And how much better they would be if the total tonnage was in?

Total estimates of the McIntosh crop as made to the cartel for the territory excluding Creston and Kootenay is 1,243,655 boxes. Shipments reported to date total 636,386. Of these, 365,636, or 29.4 per cent., have moved to the domestic market, and 269,751, or 21.6 per cent., to export.

Actual shipments of McIntosh to date show that 77.5 per cent. have moved to the domestic market and 42.5 per cent. to export. To export markets the following percentages of sizes have been moved: 150 and larger, 30.4 per cent.; size 100, 20.8 per cent.; size 75 and smaller, 39.4 per cent.

An analysis of the movement of McIntosh to domestic markets, bulk and boxes, bulk reduced to boxes at 40 pounds, by Provinces shows:

To	Boxes	Bulk	Total
British Columbia	3,349	8,559	11,908
Alberta	15,703	83,874	99,577
Saskatchewan	18,453	124,507	142,960
Manitoba	20,347	49,000	69,347
Ontario	41,874	—	41,874
Eastern Canada	—	—	—
Total	99,726	265,939	365,665
	27.2%	72.8%	100%

The movement of other varieties is interesting. Total cartel estimates always excluding Creston and the Kootenay, is 2,223,001 boxes. To date the movement is 124,102 boxes, or 5.6 per cent. of the crop. Of these shipments, 20,044, or 1.2 per cent. is to the domestic market and 97,158, or 4.2 per cent. is to export.

Marked Increase in Production of Delicious Apples Reflected In Prices Cartel Shippers Ask

Hundred Men Bid Nesbitt Farewell

Four Organizations In Vernon United To Do Honor To Retiring Banker Who Had Occupied Positions of Responsibility In All of Them—As President of Board of Trade He Had Helped To Break Down Jealousies

About a hundred business and professional men of Vernon, the district and neighboring points, attended the smoker given by four Vernon clubs as a farewell to G. O. Nesbitt. The function was held at the City Club on Friday evening. The organizations participating were the Vernon Board of Trade, the City Club, the Canadian Club and the Golf Club.

E. B. Cossitt was in the chair and introduced the speakers after a few preliminary remarks expressive of his high regard for Mr. Nesbitt. Vice President J. T. Mutrie of the Board of Trade, told of the active part the guest of honor had in the affairs of that business institution. He recalled many instances of prompt and effective action when the business interests of the community were at stake. A wide range of subjects had been dealt with during the two years Mr. Nesbitt presided. These affected fruit, culture and sale; irrigation, supply and costs; a new hotel for Vernon; the establishment of industries; railway and steamboat schedules; the Sicomous hotel threatened closure; and many other affairs.

Barriers Are Broken Mr. Nesbitt had been able to do, under the conditions prevailing, what had been found impossible at other times. He had obtained joint action by the Boards of Trade at various points in the Okanagan Valley and in doing this had succeeded to a remarkable degree in breaking down animosities and prejudices and in securing unity of action which had proved very helpful.

In wishing Mr. Nesbitt success in his new field of operations, it was suggested that knowledge of the Eastern Canadian view point is essential for those who would advance in the service of so far reaching an institution as the Bank of Montreal. In saying goodbye to Mr. Nesbitt, it is fitting to extend a welcome to his successor, Mr. Darlington, who came to Vernon after experience in Vancouver and a lengthy period of service in the main branch office in Toronto, Ont.

Regrets And Good Wishes On behalf of the City of Vernon, were expressed by Mayor E. W. Prowse; for the Canadian Club by D. K. C. MacDonald, and for the Golf Club by A. T. Howe, for the City Club by F. B. Cossitt. In addition to this selected list, many other speakers voiced their appreciation. C. B. Winter and "Monty" Fraser, of Kelowna, were also called upon and B. S. Darling, new manager, told of the days when he and G. O. Nesbitt were engaged in the same branch bank in Vancouver. Colonel E. C. Edgett, Chief of Police at Vancouver, and a former resident on the Coldstream, added his tribute and contributed to the enjoyment of the evening by selections from Drummond for which he is widely known.

As a token of the appreciation of the services by G. O. Nesbitt he was the recipient of a suitably engraved silver cigarette case.

Amblition To Rise Deep feeling was evinced by G. O. Nesbitt in replying to the many kind things said by all the speakers. When the opportunity came, he accepted it unhesitatingly, not because he wished to leave Vernon, but because of his ambition to rise in the service of the bank. Management of the Owen Sound branch appealed to him as a promotion, and he had welcomed it. Mrs. Nesbitt had strenuously objected at first.

In speaking of his nine years in Vernon, Mr. Nesbitt mentioned the positions of trust and responsibility which had been his. He had found his efforts everywhere supported and in many instances he believed that good results had been attained.

Fascinating Fruit Business The fruit business, its ups and downs he found most fascinating and difficult, but he expressed the opinion that the present situation is a particularly happy one and that the return of normal times ought to bring a fair measure of prosperity.

In dealing with the various enterprises which had been established in (Continued on Page 5, Col. 6)

FALKLAND TUXIS BOYS RE-ORGANIZE

First Meeting of Winter Season Held Wednesday In United Church

FALKLAND, B.C., Oct. 3.—On Wednesday evening of last week the Tuxis boys held their first meeting of the season in the United Church and re-organized for the coming winter.

The C.N.R. passenger train changed its schedule on Monday, October 3. It now passes through Falkland at 4:45 a.m. and returns at 9:09 p.m.

On Sunday evening, October 9, the Rev. S. T. Galbraith, of Armstrong, will conduct the service in the United Church.

Among visitors at Vernon on Saturday were Mrs. W. M. Foss and Mrs. J. H. Phillips, with daughter, Rhea.

Mrs. W. Dale and children, of Endersby, are visiting Mr. and Mrs. T. Aiken.

J. Magee spent the week end visiting friends at Paxton Valley.

Miss Ora Currie, of Kamloops, is spending a short time at her home here.

VERNON MAY HAVE SENIOR B SQUAD IN COMPETITION

Presence of First Class Material In City Is Grounds For Lively Hopes

Vernon may have a good Senior B men's basketball squad in competition this season.

The presence of "Hop" Wilkie in the city has given the greatest momentum to the decision to attempt to form such a team. A star of past seasons on the New Westminster Adanacs, Wilkie would no doubt be the main-spring of the local squad.

There is, however, plenty of good material besides. Thornton, who showed well at Rutland and Kelowna; Bill Lee, who has played with Rossland and Trail, and is well known on local floors; Warwick, a newcomer from the Coast; and Larry Marrs, Fred Dean, Walter Lefroy, and Ken Kish, of past Vernon line-ups, round out the contingent.

At a meeting of the Vernon Basketball Club on Thursday evening of last week, it was announced that there would also be Junior, Intermediate A and Intermediate B boys' teams entered this year, but it has not as yet been decided if there will be a girls' quintette.

Practices this season will be on Tuesday and Friday nights in the Scout Hall.

The official annual meeting of the Vernon Basketball Club will be on Friday night, when the executive for the year will be elected and other business attended to.

VERNON HI HAS 4-1 VICTORY IN SOCCER SERIES

Kelowna Vanquished In First Match This Fall—Return Game Saturday

Vernon's crack High School football squad raced through Kelowna's defense at Polson Park last Saturday afternoon to chalk up a 4-1 victory.

The victory was the star of the day, being credited with three goals. Tony Stubbs got the only tally for the Orchard City students in the first half, while Tom Townrow got Vernon's other counter.

The Vernon team will travel to Armstrong next Saturday afternoon.

SALMON ARM TEAM BEATS ARMSTRONG

Visitors Win High School Soccer Fixture By 2-1 Count

ARMSTRONG, B.C., Oct. 3.—Salmon Arm High School football team returned from Armstrong on Saturday, victors by a 2-1 score over their Armstrong rivals. The game was very even throughout the first half, the visitors having a shade the better of the play. Kennedy, of Salmon Arm, notched the only goal. Both goalkeepers were kept busy and made some good saves.

In the second half the local boys tried hard to even up the score. Keeping the major part of the play, they attacked constantly, but lost possession of the ball long enough for their opponents to score again through Gerald Doe. The home team rallied gamely, and with only a few minutes yet to go Sugden made Armstrong's only tally. Time out was called for Armstrong, and recommending they attacked so strongly that only poor shooting prevented them from at least evening the score. After the game lunch was served and vanquished in the High School, by the Armstrong girls' soft ball team. The teams: Armstrong: D. Sugden, C. Maundrell, K. Mitchell, W. Aslin, G. Lafrance, W. Bradley, J. Cooke, G. Miller, C. Hamilton, K. Pellett, A. Clayton, P. Maundrell.

Salmon Arm: G. Suckling, N. Jordan, M. Mackay, N. Port, C. Hunter, A. Reed, W. Patterson, A. Turner, G. Kennedy, G. Doe, S. Thomson, A. Cave, R. Turner.

Ready for Lunch
"My word, Dick, you've got the latest thing in typists."
"She is certainly that. She never gets here till eleven."

She: Well, you proposed to me seven times before I accepted you, didn't you?
He: Yes, and then my luck gave out.

TROUBLED ALL LIFE WITH CONSTIPATION

But Kellogg's ALL-BRAN Brought Real Relief

If you are subject to headaches, loss of appetite and energy, sleeplessness and other effects that so often result from constipation, read Mrs. Turner's voluntary letter.

"For the past six months I have been eating Kellogg's ALL-BRAN, and cannot praise it too highly."

"Am fifty years of age. All my life have been troubled with constipation. Kellogg's ALL-BRAN has not only helped me, but has cured me."

"I thought I couldn't like the taste of bran, but Kellogg's ALL-BRAN is delicious."—Mrs. C. J. Turner (address upon request).

Tests show ALL-BRAN contains two things which overcome constipation: "Bulk" to exercise the intestines; Vitamin B to help tone the intestinal tract. ALL-BRAN also supplies iron for the blood.

The "bulk" in ALL-BRAN is much like that of lettuce, fenelle, celery, it forms a soft mass, which gently clears the intestines of wastes.

Certainly this is more natural than taking pills and drugs—so often harmful. ALL-BRAN is not habit-forming. Two tablespoons daily will correct most types of constipation. If you have intestinal trouble not relieved this way, see your doctor.

Get the real-and-green package at your grocer's. Made by Kellogg in London, Ontario.

NOVEL TOURNEY AT FORMAL CLOSING THE VERNON GREEN

Prize Winning Rink Was Composed of Players From Three Clubs

In glorious sunshine, with visitors from Kamloops, Salmon Arm, Armstrong, and Summerland in attendance, the Vernon Lawn Bowling Club brought its 1932 season to a close last Thursday.

The closing was in the form of a tourney. The names of all skips, were put in one hat, and leads, seconds, and thirds in like manner, and the various rinks formed by drawing out of a hat.

The rink which emerged with three wins consisted of A. Marshall, Armstrong, skip, and Mrs. W. G. Drew, Vernon, and Mrs. M. J. Prior, Summerland. All rinks played two games in the afternoon and one in the evening, and competition was very keen, but Marshall's rink was the only one which did not taste defeat.

The four were therefore awarded the prizes. Mr. Marshall and Mrs. Drew winning radio lamps, while Mr. Moyes and Mr. Laidman received rose bowls. One happy feature of the prize winning was that three towns were represented in the victorious rink.

In the evening Mayor Prowse spoke briefly to the club members and their visitors and presented the prizes.

OYAMA WOMAN IS INJURED IN FALL

Mrs. Battley Suffers Broken Ribs When Rail Collapses At Packing House

OYAMA, B.C., Oct. 4.—Mrs. Battley, who suffered some broken ribs and other injuries some days ago when a rail on which she was sitting outside the Vernon Fruit Union packing house here gave way, and caused her to fall some fifteen feet to the ground, is still in Vernon and will not be home for some time, but is reported to be progressing well.

A. G. R. Prickard, lay secretary of the executive committee of the Anglican Church, left for Kelowna on Tuesday to attend the Fall meetings of that body.

W. Newton and J. Elliott, who have been up at the lake for the last two weeks doing repair work to the irrigation system, returned home on Saturday.

H. H. Pearn has recently purchased from Major McKay the house and orchard known as the Richard property.

Mr. and Mrs. Pringle and family, of Coquitlam, who have been spending the last two weeks as the guests of Mrs. W. Pringle, left on Saturday for their home.

While here Mr. and Mrs. Pringle and family and Mrs. W. Pringle and family spent a week end at Kamloops where they visited W. Pringle, who is in hospital there.

Last Wednesday, being the birthday of both Patsy Dobson and Peter Orsak, these two young people joined together in giving a "hot dog" birthday party round a camp fire on the beach in the evening. Guests wore fancy dress of their own design, many of which were most original. Needless to say a very jolly time was spent by all.

The many friends of Mrs. Deschamps will be glad to know that she has been feeling much better, and is able to be out to enjoy this lovely Fall weather.

WARM WEATHER BRINGS SUDDEN RIPENESS IN ALL APPLE ORCHARDS

Visitor From Scotland Greatly Pleased With Appearance Of Okanagan District

LAVINGTON, B.C., Oct. 3.—The apple growers of this district have been very busy during the last week. The colder nights and warm sunny days ripened the apples so quickly that they were dropping heavily.

"Bob" Andrews returned to his home in Vancouver on Saturday after spending a short vacation at the guest of Mr. and Mrs. William Dave.

Mr. Mahon, of Aberdeen, Scotland, who has been visiting his niece, Mrs. Harold Roberts, left on Tuesday for Vancouver en route to Scotland. Mr. Mahon has been travelling in Canada since June and is very pleased with this country.

W. Hollerback, of Saskatchewan, has taken up residence on the Muriel Ranch for the winter.

Mr. Middlemis, Post Office Inspector, was in this district on Thursday and Friday last week.

Miss Barclay, of Sugar Lake, was visiting friends in Lavington for a few days last week.

Victor Locke and party, of Penitence, passed through Lavington on Sunday en route to the Monashee and Nelson districts.

Mr. A. J. East returned to her home here on Friday after spending the past month with her daughter, Mrs. C. A. Phillips in Vernon.

THE VANCOUVER SUN TO PRINT BIOGRAPHY OF THE LATE JOHN OLIVER

A biography of the "Grand Old Man" of British Columbia, the late John Oliver, has been compiled by James Morton, his former private secretary. The Vancouver Sun will issue the volume in serial form in its columns, beginning on Oct. 11.

Morton, the author, is well qualified for his task. He was for many years a member of the Legislative press gallery as correspondent for the Nowa-Advertiser and the World and was in intimate daily association with the late prime minister during the last five years of his life.

OKANAGAN LANDING NOTES
OKANAGAN LANDING, B.C., Oct. 3.—Mr. and Mrs. Robertson left last week to reside in Vernon for the winter.

Mrs. M. J. Finlayson, of Steamons, was the guest of Mrs. P. R. Finlayson last week.

Mrs. Jack McLeod was here for two days last week. Mr. and Mrs. McLeod have left the Landing permanently, having built a home in Penitence.

Mr. and Mrs. E. Barber are occupying Mrs. Ryan's house.

Mr. and Mrs. Pearson left for Comtenu last Saturday, after having spent two weeks with Major and Mrs. Allan Brooks.

Mr. and Mrs. McSwain, who have spent the summer in one of Millar's cottages, returned to Revelstoke last Sunday.

GARDEN PARTY AT WESTBANK IN AID OF PREVENTORIUM

Dr. G. A. Ootmar Addresses Women's Institute On Kelowna Organization

WESTBANK, B.C., Oct. 3.—The regular meeting of the Westbank Women's Institute was held on Tuesday, September 27, at the home of Mrs. L. J. Prior, under the auspices of the "West Group" of members, who have done such creditable work during the year. The meeting took the form of a garden party, a special feature of the program being a linen shower in aid of the Preventorium at Kelowna.

Dr. G. A. Ootmar gave a short but very interesting address on the work of the Preventorium, and it was regretted that the attendance was not so large as usual owing to the fact that so many of the members are busy in orchard and packing-houses.

The proceeds from the sale of ice cream and candy during the afternoon also went to help make up the donation to the Preventorium made by the local Women's Institute. In the evening Mr. and Mrs. Prior kept "open house" for the young people of the neighborhood, when dancing was enjoyed for several hours. A collection was taken.

Mrs. H. Moffat, who was elected to the office of member of the Advisory Board of the Preventorium several months ago, has since become a member of the Board of Directors of the Institution. Mrs. Hoskins volunteered to act in Mrs. Moffat's place, when the President explained the situation to the members.

The dance arranged by the "Trail Commanders" and held in the Community Hall last Friday evening, was attended by people from Penitence, Summerland and Peachland, as well as the local crowd and was enjoyed immensely by one and all.

The Misses Elsie Hannam, R.N., and Jean Kaye, of Vancouver, left Westbank on Thursday, after spending their holidays with the former's parents, Mr. and Mrs. W. J. Hannam.

E. O. Hewlett, who is still working at Kaleden, spent the week end at his home here.

LEGION EXECUTIVE SEEKS A MANDATE

Armstrong Branch, Feeling Pinch of Present Conditions, To Decide On Policy

ARMSTRONG, B.C., Oct. 4.—A special meeting of the Armstrong branch of the Canadian Legion, to which civilian members of the club are also invited, has been called for Wednesday next, to discuss matters of present and future policy. The Legion, like all other institutions, is feeling the pinch of present conditions, and the executive will place the whole position of affairs before the members, while the organization is yet in a good sound financial position.

ROSE TREE BLOOMS IN SALMON VALLEY

SALMON VALLEY, B.C., Oct. 4.—Douglas Heywood, and Arthur Waite, of Hendon, are at present hauling lumber from the Silvermill's mill, near Falkland, to E. K. Smith's box factory at Salmon Arm.

Miss Nanette Heywood found a wild rose tree in the garden, which has just started to blossom again, and every morning she is able to pick quite a nice bunch of roses. Rather a unique experience for October.

Rush Graham, of Malakwa, was a visitor in the Valley last week.

F. Bowles, of Victoria, Gordon Gray, of Armstrong, and Alfred Pryce, of Heywood's Corner, left last week on a hunting trip.

Mrs. C. Lampman, of Glenenna, was a visitor at Mrs. Heywood's last Thursday.

George Henry was a visitor to Salmon Arm last Tuesday.

Mr. Ferguson, of Vernon, is at Schweb's Bridge, building a new big hay barn for Charlie Schweb.

Mr. and Mrs. George Henry were Vernon visitors on Wednesday.

James Haines, of Silver Creek, is spending a few days in the valley this week.

Rev. A. Crisp, of Falkland, left on Friday for Silver Creek, where he spent the week end.

The Rev. Mr. Crisp was also a visitor at the home of Rev. J. P. Shaw, of Salmon Arm, on Saturday.

Mr. and Mrs. H. W. Fritchard and Dorothy, spent Sunday at Lavington visiting relatives.

Mr. and Mrs. Bedall, of Westwood, and W. P. Denison, were visitors at Salmon Arm on Monday.

Mr. Bailey, of Kamloops, motor-cycled through to Enderby last Friday. He left on Saturday for Victoria, where he intends to spend the winter.

IRRIGATION WORK AT KEDLESTON COMPLETED

KEDLESTON, B.C., Oct. 1.—Harry Greaves has gone to Vernon to reside, the water service for irrigation being completed for the season.

Just before Miss Cameron's orchard, John Hanna is making a nice home for himself, planting a few fruit trees and a nice bed of strawberries.

Ray Simmons is getting around after his spell of sickness. The community will be glad to see him riding again.

BOX OF BIG APPLES IN SHOP WINDOW ATTRACTS GOOD DEAL ATTENTION

Several of the Apples Weigh 18 Ounces and Average Is About A Pound

Orchardists and apple fanciers were interested in examining a box of the Wolf River variety, grown on the one acre of that kind in W. O. Pound's 20-acre B.X. orchard, which was displayed in his shop window last week.

Many of these apples, 30 to the box count, weigh as much as 18 ounces, and the average weight is about one pound.

Others on the tree, states Mr. Pound, were so large that he could barely hold them in one hand. While not at all suitable for eating in the raw state, they are unequalled for pies, he declares.

Mr. Pound has about 1,100 trees in his orchard, consisting of Macs, Rome Beauty, Delicious, and Jonathan, but he says he took greater interest in the one Wolf River tree this season than in any of the others.

DEEP CREEK DAM WORK COMMENCES

Men Blow Up Beaver Blockades In Preparatory Stages of New Project

PEACHLAND, B.C., Oct. 2.—Work on the construction of the new dam at the North Fork of Deep Creek began Monday. Last week men were sent up to blow up the beaver dams which had flooded the site with water. It will take a little time for the location to dry up sufficiently to allow the work of clearing the dam site. The work of clearing the dam site. The work of clearing the dam site. The work of clearing the dam site.

Three carloads of export apples were shipped out last Wednesday from Walter's Ltd. One car was Jonathans, running in the smaller sizes to 23's, and the other two were McIntosh Reds. Earlier in the season a bulk car of the larger Macs were sent out to the domestic market. All of the Macs are now in to the packing houses, and Jonathans are being picked. The latter are exceedingly well colored for this time of year so that all orders for this apple may be filled when required.

The first bridge drive of the season was held Friday evening, under the auspices of the Ladies' Auxiliary to the Canadian Legion. A most enjoyable evening was spent by those present. The ladies' first prize was won by Mrs. A. McKay and the gentlemen's prize by A. Smalls. Consolation prizes were given to Mrs. E. Ruffles and A. Ruffles.

Highway Improved
A certain amount of grading has been done on the main highway, which has made a decided improvement through town. Previous to the grading, there was so much wash-board due to the heavy traffic, that the roads were very rough. It is to be hoped that more work will be done on the highway to put the road in good shape for the winter.

A son was born to Mr. and Mrs. Delcourt at Vancouver, September 25. Mrs. Delcourt was formerly Miss Frances Clements, of Peachland.

WHAT IS HIS PLACE IN HISTORY?

Will the late John Oliver be remembered most for his picturesque personality, for his romantic rise from mine boy to Prime Minister, or for the part he played in opening up the western grain route? You can only form a true opinion by reading "Honest John's" full life story, as revealed by James Morton, his former private secretary.

One never can tell where the good seed will fall

Does advertising sell goods?

Does advertising in The Vernon News sell them?

These are pertinent questions the answer to which can best be secured by those who have the personal opportunity of discussing them with advertisers. Those who advertise steadily do business. No doubt others who do not advertise in this newspaper do business also. Possibly they might do much more if they advertised. Last week a number of advertisers used space who do not do so regularly. Several of them told The Vernon News that they enjoyed improved patronage.

The Vernon News does not claim advertising in its columns will create demand or sell goods in outside centres, but this week a letter was handed in with the comment that no doubt we would be pleased. Here it is:

212 Brock Ave. North
Montreal, P.Q., 1932.
The West Canadian Hydro Electric Corp., Vernon, B.C.

Dear Sirs:
I notice in a recent issue of The Vernon News an advertisement of yours referring to electric heating for green-houses.

Could you send me a copy of booklet giving the details of the system and where the necessary supplies can be obtained.

Yours very truly,
H. E. STEPHENSON.

VERNON, B.C.

Grant Report Says Prices on Apples for Export Shows Quite A Downward Tendency Now

Expects Improvement When the Preference Goes Into Effect

The weather during the whole of the past week has been wonderfully bright and sunny, and no damage from frost has yet been reported. Conditions are ideal for the harvesting of crops and the whole valley is humming with industry, according to the Markets Bulletin, issued by Markets Branch, B.C. Department of Agriculture, co-operating with the Dominion Fruit Branch, edited by J. A. Grant.

The peak of the McIntosh movement is about reached, and it is remarkable the quantities that have been moved from the Valley. The quantity of Macs being stored is extremely small as compared with last season, and those stored are of much more desirable sizes than were stored last year.

Some Wealthies still remain to be moved, but it is hoped that they will soon be disposed of, the low price as compared with Macs being an inducement.

Inquiries for Jonathans are becoming numerous, probably on account of its being a harder variety of bulk than any now moving. There is an opinion in some quarters that it would be very wise to hold this variety off the market for some time yet, so as to give the Wealthies and Macs time to clean up.

Prices on export apples show a decided downward tendency, due in part to the large volume that is being poured into the United Kingdom of American as well as Canadian apples. After the preference goes into effect, the American movement will undoubtedly be slowed up very greatly and prices advanced accordingly.

Hyslop crabs are still hanging on the market, but the movement is very drab.

The plum season is over, with the exception of a few late Grand Dukes and Rene Claudes. Due to heavy competition from Ontario on the prairie markets, the deal has not been all that might be desired.

Peaches are practically all cleaned out for this year, the quality of fruit shipped having been extremely satisfactory throughout the season.

The same cannot be said, unfortunately, of Italian grapes, which seem to have suffered severely from the unusually wet fall: cars having been inspected at shipping point and showing perfect condition being again inspected on arrival in Calgary and showing 15 per cent. rot. This condition seems to apply to all shipping points, trees ripened fruit being in the same class as fruit coming from later districts showing less maturity.

Onions are now moving out in heavy volume in straight car lots, the weather having been particularly suited to the curing and harvesting of this crop. The recent rise in onion prices would indicate that some of the prairie markets are not as well supplied with this produce as was estimated.

Early frosts have also affected the potato and celery crops at various prairie points, thereby brightening the prospects for producers in this province.

As frost in the Valley is still holding off, tomatoes and cucumbers are still on the market, but are dragging badly.

Relativity of f.o.b. Shipping Point and

Prairie Wholesale Prices

In view of various inquiries from growers and others, we wish to draw attention of readers of our Bulletin to the relations existing between f.o.b. Shipping Point Prices and those obtaining in the various prairie centers. Cartel prices of today will not reflect on prairie markets for a week or ten days hence, so that prairie wholesale prices as quoted in this issue should be compared with f.o.b. prices of one or two weeks past.

F.o.b. Shipping Point Prices (as issued by the Cartel Committee)

McIntosh Red:
Ex. Fcy. 113s to 150s, per box \$ 1.40
Fcy. 113s to 150s, per box 1.25
Cee 113s to 150s, per box 1.00

CALGARY, Alta., Oct. 1.—We have had a full week of fine weather with cool nights. Prospects today are for the continuance of this over the week end. Reports from North of Calgary indicate that threshing will be resumed in earnest the first of next week. In some of the northern districts very little threshing has been done. The south has been much more fortunate and a few days more should complete their harvesting.

Potato growers in the heavy producing districts of Southern Alberta are storing some very immature Netted Gems. This portends future trouble. Due to heavy late rains, second growth is very common, and very heavy cutting out will be necessary in marketing the potato crop from these districts.

Business on the local fruit market is now confined principally to Bulk McIntoshes, which are of exceptionally fine quality and which move into consumption rapidly. Both jobbers and retailers are working on a minimum profit, and the consumer is getting cheaper and better apples today than he has had for a good many years. Some Wealthy Household are being retailed at 65c a crate to clear. Although wholesalers are quoting 95c to \$1.00 on bulk crates Household McIntosh, some retailers are quoting the same pack at 80c today.

The kick has gone out of preserving fruits, and considerable stocks of peaches and prunes are still on jobbers hands. Washington peaches have shown heavy shrinkage, and jobbers handling same are taking substantial losses.

Yellow Denver Onions grown in the Medicine Hat District are now on the local market and compare very favorably with Okanagan stock, both as to grade and maturity.

Our arrivals, Sept. 24 to 30, inclusive: B.C.: Apples, 23 bulk, 7 boxes; 2 Ontario, 1 bulk, 1 grape, 7 fruit and vegetables, 1 vegetables. Imported: 1 grapes and 1 bananas.

EDMONTON, Alta., Oct. 1.—The market has been quiet most of the week, improving slightly toward the end.

There is no change in the apple situation. The movement of bulk apples is active, but sales are being pushed to the limit. Wealthies are still arriving but while showing excellent color, are becoming more or less over-ripe while the quality of the McIntosh is improving daily.

Hyslop crabs have been moving fairly well and stocks are pretty well cleaned up. A few small lots of Transcendent are sticking in warehouses.

Peaches have lost the interest of buyers and movement is very slow, with a certain proportion showing deterioration and being jobbed.

Plums have not been active at any time and interest has gradually diminished until now they are hard to move at any price.

The movement of prunes has lost the snap of two weeks ago but a certain quantity can still be sold at prices quoted. Stocks in jobbers' hands are being reconditioned and sold and the market should be in fair shape next week.

Grapes are now arriving from both east and west. Concord from Ontario and Campbell's Early from Kelowna. The quality and appearance of the B.C. grape is superior to that of the Ontario Concord but the flavor of the latter is more popular with the consumer. B.C. Concord should meet with good reception. Both are selling well at prices quoted below.

The tomato market is in a healthy condition but the usual increase in greener fruit as the season advances is becoming noticeable and the trade is complaining. Otherwise the quality and condition is excellent.

Onions are just commencing to arrive in volume. The size and quality is very satisfactory. The movement is normal.

Celery movement is normal with the market steady. Both local and B.C. arrivals are of fair to good quality. The local potato crop is being dug and is showing very low yields in many fields. They are small in size but of very fair quality and condition. The market is firm at prices quoted.

Mixed vegetables show a very reduced yield but local offerings are ample for present demand.

Car arrivals for the week: B.C.: Bulk apples 16, grapes 1, mixed fruit 2, fruit and vegetables 11, onions 3.

California: Grapes 1, mixed citrus 3.

Apples, McIntosh, B.C.: Fcy, box \$1.80 to \$1.90

Turnips, local, cwt. 1.25 to 2.50

Saskatoon, Sask., Oct. 1.—Fine weather most of the week has enabled threshing to proceed without interruption, and it is now estimated that about 90 per cent. of the wheat crop has been threshed.

Though car arrivals for the week are slightly lower than for the previous one, volume is being well maintained, and practically all commodities are moving freely. Bulk McIntosh are the largest moving item, their generally fine quality making them a very attractive buy, and though some cheaper bulk have been brought in, these are not curtailing the sale of the Macs. The numerous boxed window displays of wrapped McIntosh and stimulating apple sales. Ontario Concord grapes are also a very fine commodity, a large volume being handled on a narrow margin, retailers selling them in some instances at less than cost, to draw trade. Ontario peaches in six quart lugs baskets have had a good play on this market. Ontario arrivals are increasing, but none to date are being stored.

Apples: McIntosh, Fcy. \$2.00 to \$2.25

B.C.: 4 bulk apples, 4 mixed.
California: 2 citrus.
1 bananas.

Regina

REGINA, Sask., Oct. 1.—The weather during the week has been warm and dry; ideal weather for farmers to complete threshing operations preparatory to starting fall plowing. Country roads are in fine condition and a heavy trucking business is being done in fruit from wholesale centres to country points. Large quantities of bulk apples are being distributed in this way, contained in any kind of container, unladen, such as beer cartons, banana crates and tea chests, and as was noted this week, plane boxes. It is a sorry sight to note the injury these excellent apples are receiving during the process of distribution.

Thirty-six cars from all sources arrived on the Regina market during the week, 22 of which were from B.C., including 11 bulk apples and 1 box, 2 prunes, 3 fruit and vegetables, 4 mixed fruit, 1 onions. Ontario shipped 5 cars of grapes and 2 mixed fruit; Manitoba 1 onions; Saskatchewan 1 potatoes; Washington, 1 mixed fruit; California, 1 grapes, 1 mixed citrus fruit; Massachusetts, 1 cranberries; Central America, 1 bananas.

Apples, McIntosh, B.C.: Bulk, lb. .02
Crabapples, B.C.: Fcy, box 2.50
Pears, Flemish, B.C.: Fcy, box 3.25

Carrots, local, cwt. 1.50
Celery, B.C., lb. .06
Head Lettuce, B.C., dozen .50

THE MARKETS BULLETIN EDITOR REPORTS THE FOLLOWING FROM WENATCHEE AND SEATTLE

During a recent visit to Wenatchee we were surprised to hear that Canadian buyers were there looking for apples. We assured them that we had a record crop of Fall and Winter varieties, and that our information was just the opposite—that American shippers were actually buying apples for their British trade in Vernon.

There was a marked difference of opinion on the advisability of shipping bulk in boxes. Several shippers intended to experiment with shipments to the Dakotas and Montana, as well as to Washington cities. All agreed that both the demand and the price were getting better.

Retail prices in Seattle were very low for Western Washington produce.

Winnipeg

WINNIPEG, Man., Oct. 3.—It is now cold, with rain falling, after a week of fine weather. Business is fairly brisk, the Jewish holiday on Saturday slowing things up somewhat.

The potato yield is lower than was expected, but is ample for the local market. The onion crop is heavy and of good quality, the crop covering the

OKANAGAN ROADS ARE VERY GOOD BY COMPARISON

With Those Elsewhere Throughout the Dominion, Declares A. N. Young

That roads in this district are good compared to those in most regions elsewhere in Canada is the statement of A. N. Young, who in a short time will have completed 20,000 miles of motor driving throughout the Dominion.

As the representative of eighteen different plumbing firms, Mr. Young is taking a demonstration motor car across the continent. His trek carries him all the way from Cape Breton Island to Vancouver Island, and as a free lance journalist Mr. Young is doing more than represent the various companies that organized the tour. A man of wide journalistic experience in Australia and in Europe, Mr. Young is now compiling a book with regard to his travels and observations in Canada.

The Okanagan Valley has caught Mr. Young's attention in a marked way, and he described the approach to Vernon from the north as the "surprise packet" of his entire trip.

But for a few hundred miles his caravan has proceeded on Canadian roads across the continent. Roads in the Dominion, on the average, he branded as "punk," with "wash-board" abounding everywhere. The Okanagan roads, he said, were splendid compared to the majority of main highways in other provinces.

Mr. Young's car is supplied with its own lighting plant, hot and cold water system, bath set, kitchen sink, and boiler.

Accompanying him are R. Sutherland, a young graduate in arts from McGill University, and L. G. Thomson, a representative of the professional magazine "Bar and Bench." Mr. Thomson, also, is a writer, and is securing articles from the legal fraternity during the course of his trip.

ORGANIZATIONS TO ASK TOLMIE TO DO SOME RETRENCHING

Would Have At Least Portion Of Kidd Report Now Acted Upon

VICTORIA, B.C., Oct. 6.—Organizations sponsoring the story by the Kidd Commission will be represented at a conference with Premier S. F. Tolmie this afternoon, at which the Premier will be asked to implement several portions of the report, pertaining to retrenchment.

POLICE FIRE CAUSES ROD RIDERS TO HALT

MOOSE JAW, Sask., Oct. 6.—Halted by the police, a story by four transients were arrested in the city yards Wednesday evening and will face charges of stealing rides on railway trains. None of the fugitive rod-riders were wounded.

Caruso, the famous tenor, saying that no man is as well known as he thinks he is, told this story in a incident that once occurred when he was motoring. "My car broke down and while the chauffeur was repairing it I entered a farmhouse to get warm. The farmer and I chatted in the kitchen before the wood stove, and when he asked my name I told him modestly that I was Caruso. At that name he threw up his hands. 'Caruso!' he exclaimed. 'Robinson Caruso, the great traveller! Little did I expect ever to see a man like you in this 'ere humble kitchen, sir!'"

quantity of abnormal potatoes is likely to be fairly large. In addition, some fields are noticeably showing Late Blight and Blackleg.

The growers in this district expect a fair autumn yield with Southern Saskatchewan. This was denied them last year owing to the fact that almost the whole of Southern Saskatchewan was under relief and Northern Saskatchewan potatoes were used almost entirely by the Relief Board. This condition does not exist this year, and shippers throughout Southern Alberta are hopeful that at least a part of their surplus will go to Saskatchewan.

Until digging in the South is completed, and the quality and maturity of the stock is assured, it would be hard to make any estimate of how many exportable cars of potatoes there will be. Southern Alberta. Reports from the Northern and Central parts of Alberta are to the effect that it is most likely that potatoes will have to be imported into these territories. From this outlook, it would appear that any surplus in the South will be pretty well taken care of by the demands from Southern Saskatchewan, Calgary and Central Alberta, and B.C. will not have the opposition on the Prairies that they have had for the last two years.

Wenatchee, Wash.

WENAT

GROWERS OF WEALTHY APPLES THINK THAT PRICES ARE TOO LOW

Salmon Arm Observer Asks Why Could Not Higher Prices Be Secured

There are two sides to everything. Many growers of Wealthy apples are asking the same question as is voiced by the Salmon Arm Observer in the following paragraphs:

"While the demand for apples on the Prairies has been wonderfully good this year and this district has cleaned up its large supply of wealthy apples, the Markets Bulletin report of which we give extracts elsewhere, shows that there is still something wrong with the marketing of early fruit.

"From \$25 to \$25.50 and then to \$17.50 per ton is quite a drop for Wealthy of high quality, while Macs, far from maturity and of inferior color sell for \$25, does call for some explanation. We do not think it is entirely due to earlier shipments of Macs although over the past few years the same story has been told and the Wealthy grower has had to take what came.

"We noted, as did The Kelowna Courier recently, that there was an apparent intention to cut by the Carleton Place committee, it having been suggested by one individual that even a drop of \$15 a ton might be made. So far as Salmon Arm growers are concerned they could readily handle their own shipments at cut prices and make just

as much money and perhaps more than they do at present. The growers are certainly justified in demanding some sort of explanation."

COMPROMISE AND CO-OPERATION ARE MOST ESSENTIAL

International Economic Conference Must Bring Basis For Revival World Trade

The world is becoming increasingly inter-dependent. The farmers, miners and fishermen of Canada need new and greater markets for their products. World-buying power must be increased and this can be achieved only by means of mutual concessions, according to the monthly letter of the Royal Bank of Canada. The inter-dependence of the world must continue to be increasingly complete. There can be no high level of national prosperity discovered from world prosperity. This is a British tradition and it is the world's departure from this tradition which is in no small measure responsible for the difficulties in which the business world is now involved.

In the years since the war almost every nation has come into conflict with other nations on political questions where the views of the two governments seemed completely irreconcilable. There seemed to be no possible compromise. The disservice of the two viewpoints was complete. Again and again this has been true of France and Germany, of France and Great Britain, of Great Britain and Russia, of France and Italy, etc. Yet, as time has passed, new viewpoints have developed. Those personalities who have determined governmental policies have given place to new personalities. Viewpoints have changed. National ideals themselves have been adjusted to realities. Gradually a basis for one compromise after another has been found and discord has given place to harmony. It is an established principle that if one group of diplomats and intermediaries can find no common basis for discussion it will not be both, will replace these men with others long before one side or the other, or who will be able to take a broader and less passionate view of the subject. War itself no longer holds forth the hope of overwhelming victory. After war, the old questions remain to be settled and the final settlement is an adjusting of conflicting views. It is a process like this which will restore a process like this which will restore relations between nations. Where prejudice in favor of extreme economic nationalism holds complete control of national policies so that the existing governments are afraid of the political repercussions of compromise, the process may be slow. Compromise and co-operation in international trade relations are essential to world prosperity and in the long run compromise and co-operation will be achieved.

As a preliminary to the International Economic Conference there is a widespread pessimism. As yet there is a feeling that national governments are too divergent in viewpoint to make satisfactory international agreements. It may be that this particular Conference is doomed, but there was also pessimism concerning the outcome of the Ottawa Conference. At the Ottawa Conference mutual concessions were achieved. It is probable that no country repented of the Ottawa Conference was completely satisfied with the results attained. In a like manner the World Conference will bring no complete success to any one nation. At the worst, it may be a complete failure, but from that failure will come better understanding of the difficulties of other nations and either through a second conference or a fifth, or through agreements between individual nations, the basis will be established for a revival of world trade. Such is the nature of economic progress. It is rarely sweeping and dramatic. It is only painfully and haltingly that progress is achieved and yet down through the ages the volume of world trade has increased, the world has become increasingly inter-dependent and it is not likely that the hands of the clock are now to be turned backward in their course.

CORRESPONDENCE

Objects to Assessment

Editor The Vernon News, Sir:

Regarding re-assessment. Why the favored few? Why only Barnard Ave. residents to have a readjustment while the rest of us have recourse to the courts, where they know very well that we have not the means to appeal. If the same City Assessor can re-assess from \$250 to \$275 each. It's just crazy now, why could he not have done it as he went along in years past?

With all due respect to Mr. Wright as a book-keeper, he does not know about the value of property. My house was assessed \$600 more than the Victoria Hotel, and North St. is only a thirty foot wide, and never has been opened through. My neighbor started to build a house, just got up the outside part, cheap lumber, no plaster, no partitions, no water, no light, assessed \$1,200, worth about \$300. Another man has a frame house that sits up on posts. Taxes over \$60, lots of land, but no house, assessed \$1,000. Why can't the assessor come and take a look before he puts a price, or has he a rubber stamp? Compare this with Barnard Ave. They do not know when they are well off. This has gone on for forty or more years, yet have one asks for a street light they are told to get up a petition. Result no light.

There are plenty of men in Vernon capable of making a revaluation. Messrs. Moffat and Cossitt. Judge Swanson took their word for property value, and I don't think they would soak us too much, no more accordingly than \$700 for one supper and Ald. Hurt said that was not much.

When I told Ald. Wilde that a contractor went over my house and put a value of \$640. He said, well you are not assessed for what it is worth now, but for what it would cost to build another. Tell that to the judge.

If I had any one to keep but myself I could not do it. For fifteen years I paid taxes on property valued at ten times what it is worth, and now it goes back to the city. Forty-two mills on the dollar. 142 mills is more like it. The Board of Trade says advertise. Well, if tax sales are a good advertisement, Vernon is well done for.

The airport was not so badly needed. That may go the way of the pumps in the park, sold for junk before the price tags are off.

In years gone by when I could make nothing here, I worked out, in railroad camps, logging camps, ranch, threshing outfits in Alberta and sent my money back here to pay taxes. I did not owe, for my property was not worth a third of the value the assessor put on it.

Now, when I ask to have a dirty hole on the street filled in, all I get is a dirty look, and told, perhaps next year. I take the word of the assessor, there are builders and men who thoroughly understand property values, who would help for very little. Give each man a district to value, and then put the mill rate where it belongs. A lot of us would be better off. Quit trying to do things the people cannot afford.

Yours truly,
Eva McLean

SPEAKS OF TRIP ON GIANT R-100

T. Wayling Tells Penticton Canadian Club of Air Flight Over Atlantic

PENTICTON, B.C., Oct. 4.—The Penticton Canadian Club was given a great treat on Monday when T. Wayling, noted Canadian journalist, gave a talk, interspersed with witty and humorous anecdotes, upon the great airship R-100, and his experiences during a flight across the Atlantic on board her.

The passage took only 67 hours, he said, and was accomplished at an average height of 2,000 feet above sea level and an average speed of between 60 and 80 miles an hour. It was remarkable for the wonderful stability and lack of all sense of motion, so that neither air-sickness nor sea-sickness troubled the passengers.

The lecturer gave a short history of the inception of airships, and an account of the construction of the R-100. He was especially well adapted to describe her, as he made many hair-raising acrobatic excursions about the man-of-war, inside and out, while she was at full speed; apparently undeterred by the many "jumping-off places" which seem a part of her make-up.

Mr. Wayling's very interesting and vivid account made the audience feel that they were viewing the earth from an angle never before conceived, from the height of a new dimension only recently discovered; whence sunsets on the open sea, moon halos, icebergs, well-known lands, rivers, and cities took on a foreign but enchanting aspect.

The Penticton branch of the Canadian Club has been severely masculine in gender heretofore, but has recently invited the membership of ladies. As at least one third of the audience was composed of the latter, it would appear that the response has been immediate and satisfactory.

TALKING PICTURES COME TO SICAMOUS

Two Years Since Silent Films Were Last Shown—Company Re-organized

SICAMOUS, B.C., Oct. 6.—The first sound pictures in Sicamous will be heard and seen in the local hall tonight, Thursday. It is two years since the silent pictures were last shown here, as the high cost of films at that time caused the company to discontinue their operation.

The re-organized Okanagan Cinema Company has installed a temporary machine and is showing "The Cat Greeps" as a premiere.

The Sicamous Post of the Canadian Legion was well represented at the smoker held in the Salmon Arm Legion Hall on Monday evening. Members of the legion were present from all branches of the Legion in this area. Past President Bert Evans, was presented with the past president's badge, after serving four years in the president's chair.

The entertainment and refreshments were excellent.

Arnold Tordoff left on Monday for Regina, where he will resume his studies at Regina Technical School.

Pete Davis and party, of Revelstoke, had an excellent day's fishing here on Tuesday. They brought in eleven beauties.

Thomas Thomson, of Eagle Bay, was the week end guest of Mr. and Mrs. Frank Kappel.

KILLS COYOTE BY SWINGING BUCKET

Mr. Lingen of Finatant, was just about to pour the mash in a trough for his chickens when a chicken followed closely by a coyote came rushing by. By swinging the bucket with full force and striking the coyote the animal was brought to a standstill.

IN NEW YORK PATIENT SIGNS A NOTE BEFORE THE DOCTOR OPERATES

Dentists Also Ask Agreement To Pay On A Monthly Basis For Extractions

We suppose it was only a matter of time before the easy-payment system took in the professions, but it seems a pity, says the Chicago Book Herald, that New York is in operation whereby the patient signs a note before he is operated on or has his teeth extracted, agreeing to pay the fee in monthly instalments plus 6 per cent interest. It is hard to blame the doctors or hospitals, when it is remembered that people can accept their services without thought of obligation. People who would be highly offended if someone suggested that they should break into their doctor's safe thinking nothing of robbing him of the amount of his bill by not paying it. Not all people, of course; still there is that thoughtless minority who are influencing the professions in the wrong direction, as we think, the direction of commercialism. They will be the ones who will eventually suffer, but they will cause others to suffer with them. Perhaps this is all that should be.

If we condone the failure of our friends to pay their debts, and still think they are highly respectable, it is only because we are a little bit uncertain of our own morality, and if we have to pay for our false tolerance, shall it be said we did not deserve it?

NEILL INQUIRES INTO ALLEGED DUMPING OF QUANTITIES OF SALMON

Campbell River is very much concerned with the report of the dumping of a large quantity of salmon off Quathlanki Cove, says the Comox Argus. A. W. Neill, member for Comox-Alberni, hearing of it, has addressed the following letter to W. A. Found, Deputy Minister of Fisheries at Ottawa: "Reported many salmon dumped in Johnstone Strait by Anderson seine boats last week. Has our \$50,000 Vancouver office advised you of this latest measure of conservation? Was it done with the knowledge of the local officer? If so, why catch them, or being caught and not sold, why not donate to destitute? This is in striking contrast to a few weeks ago when I begged you to allow destitute around Courtenay to take a few pinkies out of the river which was over-loaded with them. I ask for a rigid investigation as to how many were dumped as there is a suspicion of further dumping, who orders the dumping, and what official allowed it and why was it not reported to you?"

NO SLEEP, NO REST STOMACH GAS IS CAUSE

Mrs. A. Cloud says: "For years I had a bad stomach and gas. Was nervous and could not sleep. Alderika rid me of all stomach trouble and now I sleep fine." The Nolan Drug & Book Co. Ltd.

HISTORIC CATHEDRALS OF ENGLAND

The Ven. Archdeacon Laycock, of Victoria, formerly rector of All Saints Church, and well-known authority on architecture, has arranged a lecture tour, visiting Kamloops, Vernon, Kelowna and Penticton. By illustrated lectures he describes and brings home the grandeur and magnificent beauty of the great historic masterpieces of the ancient cathedrals of England. He has arranged to be in Vernon on Wednesday, October 12, in the Parish Hall.

As a master of this great and interesting subject Archdeacon Laycock will be a source of inspiration and delight to all.

There is one thing in favor of courting a girl in an automobile, the engine does not get its tail over the line and buck the car in the ditch.

JURY ASKS FOR LICENSE REFUSAL

(Continued from Page One)

cocked the gun and then released it. Sergeant Bowen, of the Provincial Police, when called to the stand, explained that he had visited the scene of the shooting and that in his opinion the nature of the tall grasses was such as to make the supposition very plausible.

Little Was Able to Help Himself

Little was not rendered unconscious by the terrific charge but was able to hold a handkerchief in the mouth of the large wound while his companion rushed half a mile to telephone for medical assistance.

Dr. Harvey was fortunately able to drive his car right to the side of the injured youth, by making use of a side gate and proceeding across the fields. The accident occurred at approximately 6 o'clock, and by the time the doctor reached him it was quite dark. The lights of the motor car, Dr. Harvey temporarily dressed the wound. He stated that the clothing of Little, from the waist to the knees, was saturated in blood.

Following an operation that night, said the doctor, Little's condition was apparently improved. On the following morning, however, he suffered a weak spell and cramps set in around the wound. The infection spread rapidly, and by night his condition was not good. At 4 o'clock Saturday morning death ensued.

Dr. Harvey Gives Causes of Death

Dr. Harvey said that in his opinion, death was the result of the young man's constitution being impaired as a result of an operation for inward goitre some time previously, followed by scarlet fever from which he had just recovered, the severe loss of blood at the time of the accident coupled with terrific shock which developed about 24 hours later, and the toxins from the crystals.

All these factors combined, he said, were sufficient to overcome the strength of the heart.

Members of the jury expressed the desire of examining the gun, whereupon Ward explained that he had left it at the scene of the accident. Others had taken charge of it, he remarked, and had returned it to the owner. While it belonged to another he had used it about six times and had never noticed anything faulty with the mechanism.

The jury, however, asked for an adjournment until 10 o'clock Tuesday morning, so that the gun could be secured.

Cecil and Harvey Miller, of Falkland, were called to the stand on the following morning. They explained how they had given assistance as requested by Ward, and the latter, who took charge of the shot-gun used by Ward, stated that neither of the hammers were cocked when he found it. There was, he said, an empty shell in the left barrel.

The gun itself was presented for ex-

Empress Theatre Bicycle Contest!

BOYS! GIRLS!

—TWO BEAUTIFUL (One Boy's and One Girl's)—

Bicycles Given Away FREE

by the undermentioned Vernon merchants.

- RULES**
1. No one connected with the Theatre, Contest Stores, Newspaper, or their immediate family will be allowed to enter.
 2. Judges have been appointed to check the counting of the votes, and their decision is final.
 3. Contest is open to all boys and girls attending school in Vernon and district.
 4. Ballot Box in Empress Theatre lobby, where all votes must be deposited before Friday each week.

Get your parents and friends to deal at the following merchants who will give you votes with every purchase. Put your name on, and the boy and girl depositing the largest number of votes by December 3rd, wins the Bicycles.

1st Prizes to the winning Boy and Girl—A Bicycle.

2nd Prizes—Lovely Wrist Watches.

A GOOD CITIZEN GOES EAST

THROUGH the removal of G. O. Nesbitt, Vernon loses a citizen who has done as much in recent years as any other single individual towards bringing a fair measure of prosperity to this community. No one person had so prominent a part in bringing here the three projects which have increased the prosperity of the city and district and added to the prestige and profit of the far-seeing individuals who promoted and completed them.

All the profit in these transactions has not been to the bank or the community and in a different fashion, the man himself has benefited. While Mr. Nesbitt has been a good man for the district and the valley, the experience he has gained here has ripened his judgment and he has developed in his capacity to handle men and affairs. He is a better man today than he was nine years ago when he came here. Experience as president of the Golf Club undoubtedly fitted him for the more strenuous duties of the presidency of the Board of Trade; while to preside over the Canadian Club added ease and polish which will stand him in good stead as the future opens before him. He came to Vernon a banker. He leaves this city a man of affairs, keen in business, sound in judgment and with considerable more diplomacy than is generally found among men who hold their fingers on the strings of the money bags.

The three business enterprises with which the name of G. O. Nesbitt will long be connected are the Vernon Box Factory, the West Canadian Hydro Electric, and Bulmans Limited. As is seen at a glance by those acquainted with the nature of their operations, each is eminently suited to operate in this district. The hydro is the logical outcome of the situation which was reached when the city of Vernon was no longer able to supply power to those seeking it. Boxes are the necessary containers for the major industry, the growing of apples. A dehydrator and cannery is the natural channel for marketing of commodities grown here and which do not go into consumption in their fresh state.

It is true that these industries might have come without his aid and wise counsel. The opportunities for them were long neglected. They really filled a need which had been long felt. When the right men presented themselves to conduct such ventures they were supplied with the necessary funds so that today there are three flourishing enterprises, two of them absolutely new and the third, the hydro, supplying a field which the city of Vernon was unable to touch.

Not only has the location of those industries helped the individuals directing them. They have provided an outlet for the products of men on the lands, they are adding to human prosperity, providing for bodily needs, and earning a profit for their owners.

G. O. Nesbitt has not only made a name for himself in Vernon but he had become a valley figure. The part he has taken in bringing together representative men to discuss questions affecting all communities, has given him leadership which he has worthily borne. There is a natural expectation that he will continue to develop. His progress will be watched with interest by Okanagan Valley friends.

RESIGNATIONS FROM BRITISH CABINET

RESIGNATIONS from the British Cabinet of ministers who are firm in their belief that free trade is the best policy for Great Britain, is one of the unwanted fruits of the Imperial Conference.

Following are the reasons:—

That a system of bargaining between the Dominions is most prejudicial to the continued harmony and unity of the Empire;

That the Conference agreements were binding upon Parliament for five years, so that during that period certain tariffs cannot be reduced, even if it were found desirable to do so;

That the consideration of the present British Parliament to be asked to stereotype for five years any particular duties on foreign imports despite what the next general election may do, or what mandate it may give.

The resigning ministers also held that when the National Government was formed, the country was faced with imminent peril, and that this no longer exists.

The ministers who resigned did not cross the floor of parliament. They will give general support to the government, where tariffs are not concerned.

There is general and genuine regret throughout the Dominion of Canada at the break which has come between Premier Ramsay MacDonald and Sir Philip Snowden, crippled ex-chancellor. This final break must increase the loneliness and isolation for the premier who has now seen all his old comrades break with him. However, MacDonald, like Snowden, is a man who must go his own way.

The resignations of the ministers is not to seriously affect the determination of the government to proceed with the treaty, but it is a break that has a significance which cannot be overlooked. Apparently the opponents of the treaties have now come into their own. It is hoped that it will be a short one.

IS JUSTICE BLIND?

IS justice blind, deaf, dumb and palsied? These are questions which are being asked by persons who know something of the circumstances under which a very prominent man recently left this city for parts unknown.

For many months there have been rumors that the affairs of the Official Administrator, were not in good shape. Recently, the auditors found discrepancies which amounted to shortages of considerable sums. Then, after the official had taken refuge in flight, a warrant was issued for his arrest.

The people are demanding to know the reasons for the delay. Why were the authorities at Victoria so slow?

The Official Administrator was bonded for a small sum. It is also being asked if the Government will be able to realize on the bond when through slow action the official was not promptly arrested following it being ascertained that small estates left by a number of individuals had been plundered.

In sympathy for relatives and friends the only thing to consider when widows and orphans are cheated and defrauded of their just participation in life savings?

What an argument this whole sorry mess is in favor of every adult person having a properly drawn last will and testament.

There is a great deal of current comment on the sort of system which made it possible for an Official Administrator, over a period of years to abstract sums of money from estates and not to be discovered in the process of auditing. What is being done to prevent a recurrence of so terrible a wholesale plundering? Will not the Government be forced to make restitution?

Indian Summer

These are the days when birds come back,
A very few, a bird or two,
To take a backward look.

These are the days when skies put on
The old, old sophistries of June—
A blue and gold mistake.

Oh, fraud that cannot cheat the bee,
Almost thy plausibility
Induces my belief,

Till ranks of seeds their witness bear,
And softly through the altered air
Hurries a timid leaf!

Oh, sacrament of summer days,
Oh, last communion in the haze,
Permit a child to join,

Thy Sacred emblems to partake,
Thy consecrated bread to break,
Taste thine immortal wine!

—EMILY DICKINSON (1830-1886)

What Other Editors Say

IMITATION PRINTING

BELGRAVE BRIEFS—Every noble art has its imitators—its counterfeiters—its mendacious parasites and hangers-on, and the noble art of printing has plenty. In almost every magazine you will find an advertisement to this effect: Do your own printing. Reduce your printing costs. Use a Smudgeometer, any girl can learn to run it. Errors, misprints. You have been destroying your own goodwill which is worth more to you than either your credit or your capital. A firm is known by its printing. You cannot sell silk if your printing looks like jute. The Post Office does not care—as long as the stamp is on, it would as soon carry one thing as another. But why should any man spend money on stamps for the purpose of offending customers is a problem that would puzzle the Supreme Court. We are swung back to the crudeness of 50 years ago by this imitation printing. More and worse printing is a doubtful help to any business, but more and better—that is a different matter. The swing of the business world is towards Printer-Salesmanship—Printed, not smudged—and thousands of firms have already learned by costly experience the waste and folly of Imitation Printing.

THE IMPORTANCE OF NEWSPAPERS

EDITOR AND PUBLISHER: What would happen in your city, in a given week, if newspapers were to be abolished? We learn from Portland, (Ore.) Journal what actually happened recently at Butte, Montana, when the two daily newspapers of the community did not appear for two weeks owing to a wage controversy.

One rumor spread through the town that a terrible murder had been committed in the suburbs.

Another report carried the dismal tidings that the bonus men at Washington had blown up the White House. A third terrifying rumor, widely spread through the city, was to the effect that President Hoover had been assassinated.

Crowds milled about the streets in front of the newspaper offices, reading brief news bulletins posted on the windows. Newspaper telephones rang incessantly as subscribers begged for stray bits of news.

A messenger boy carrying exchanges from the post-office to one of the Butte newspapers was stopped by people on the street who offered as high as 50 cents a copy for the privilege of reading one of his papers.

These things, or worse, would happen in any city of this country, in like circumstances. Life would be made perilous. Business and orderly routine would suffer immeasurable harm and violence. Bedlam would break loose.

What the press contributes to organized society as a regulator of thought and conduct is little understood or appreciated by the rank and file. There are stupid men in certain communities, sometimes posing as local leaders, who do not hesitate to break the usefulness of their newspapers at every opportunity. They set up such trashy substitutions as showy advertising sheets, silly radio contraptions which can only distribute news bulletins, at best, though claiming all of the rights of the free press, and otherwise seek to embarrass responsible journals of real news and honest opinion.

Harry Chandler, publisher of Los Angeles Times, not long ago said: "Take away the newspapers, and this country of ours would become a scene of chaos." That is literally true.

KEEP TAXES TO A MINIMUM

FINANCIAL POST:—The greatest contribution governing authorities can make to the turn in the tide will be in keeping taxes to a minimum for a period of years. If the farmer is free to use some of the money he gets for his products, he will buy articles he had been denying himself in order to pay taxes. To any extent the manufacturer or retailer is relieved of taxation his business will benefit.

Ten Years Ago

(From The Vernon News, Thursday, October 5, 1922)

Stuart Paterson has succeeded Charles Rive as inspector for the Okanagan Cow-Testing Association. Mayor Costerton, City Clerk J. G. Edwards, and City Solicitor Cochran motored to Kamloops yesterday to attend the Union of B.C. Municipalities convention. W. G. Ferris, recently appointed to the management of the Vernon branch of the Canadian Bank of Commerce motored over from Grand Forks on Wednesday. Mrs. J. Forsyth Smith left on Monday for Vancouver Island where she will reside in the future with her daughter.

Twenty Years Ago

(From The Vernon News, Thursday, October 10, 1912)

H.R.H. the Duke of Connaught, Governor-General of Canada, with the Duchess of Connaught and the Princess Patricia were welcomed to Vernon last Friday. B. C. Smith received the sad news on Monday of the death of his eldest sister, Mrs. Prest, of Toronto. A pretty wedding was solemnized on Monday at the residence of Mr. and Mrs. J. Thomas, when their daughter, Miss Jean Thomas, was united in marriage to William Clay, of Revelstoke, the Rev. C. O. Main officiating. The Armstrong fair will be opened next Wednesday afternoon by the Hon. Price Ellison.

Thirty Years Ago

(From The Vernon News, Thursday, October 2, 1902)

A. J. McMullen was elected alderman on Wednesday, by acclamation, to succeed A. L. Knight, resigned. Two extra coaches were attached to the train on Saturday to accommodate the 105 passengers from the valley who will attend the New Westminster fair. G. A. Henderson's new residence is nearing completion. At the Vernon fair held last week, although it was only a partial success because of the lack of entries, the display of fruit was magnificent.

Forty Years Ago

(From The Vernon News, Thursday, October 13, 1892)

P. Brent, of Okanagan Mission, has sold his ranch to J. T. Davis, of Spallumcheen. Game must be pretty plentiful when a man in town kills blue grouse with a garden rake. One day last week one was dispatched on a verandah here. The law practice of W. M. Cochran has increased to such an extent that he has taken into partnership with him P. Billings, of the Ontario bar, who comes from Whittby, Ont.—A Ladies' Aid Society in connection with the Methodist Church at Armstrong has been formed with the following officers: President, Mrs. Lorimer; Vice-President, Mrs. McDonald; Secretary, Mrs. McPherson; Assistant Secretary, Miss Schubert; Treasurer, Miss Isaacs.

Kickininnies Run

"Kickininnies are running!" That means history and romance, for many of the local Indians leave their homes, take their tents, their horses and dogs, and year after year, go to the small streams that run into the lake to catch their winter supply of fish.

For about a month from the time of the full moon in September, the kokanees, commonly known as kickininnies, and called red-fish by the Indians, come up from the deep water, and swim into the creeks to spawn. A species of salmon, the male fish are dark red at this season. They are approximately a foot long, and they come in such shoals that the creeks are actually crowded.

The government has given the Indians the privilege of gaffing them, and all but Indians must catch them with hook and line, and as they do not bite readily, usually no one attempts to catch them this way. The Indians are not allowed to sell them.

In a blue, autumn twilight we came up to the camp-fire by Deep Creek at Peachland, where two squaws were preparing the evening meal. Their lords were sleeping in their respective tents, warmly wrapped in their blankets. One squaw was sitting on the ground kneading bread; the younger one was tending the fire, and cutting up venison to make a stew. Their smiles flashed at us as they worked.

They had been encamped for four days, and their catch was over fifteen hundred. The men catch the fish. The women clean and cure them. The fish are cleaned, split down the back and strung on sticks. When we visited the camp these sticks were resting closely together on poles in a frame of poles about six feet above the ground, so that a roof of fish was formed. The drying fires were built under this roof. The fish that had been caught, and were not yet cleaned were strung on small branches, and left in the ice-cold stream.

The major part of the fishing is done at night, because then the fish are seen more easily, dark shadows passing over the rocks. The mouth of Deep Creek has been narrowed, and a large basin dug in the sand. Kickininnies are gaffed so quickly, and in such large numbers, that they are thrown in this improvised pot, to be cleaned later.

For them, too soon this season of reversion will end, and the Indians will go back to their reservations and houses, but as we went away later we thought we saw a frail vestige of an old and romantic, proud and self-sufficient race, as the two men crouched at either side of the stream, and that pale light from the rising moon—waiting.

FINANCING OF PROPOSED DAM NOT ENDORSED

Peachland Irrigation Trustees Are Denied \$500—Repairs To Main Ditch Needed

PEACHLAND, B.C., Oct. 3.—At a meeting of the Trustees of the Irrigation District held this afternoon in the Municipal Office, general dismay was felt following the reading of a letter from the government engineer, F. G. deWolf. He stated that he would be unable to recommend that \$500 from the Conservation Fund should be used for additional storage, until such time as he could be assured that the water trustees were doing all in their power to prevent seepage from the main ditch and flume. He stated that any money coming from the Conservation Fund should be spent on these repairs.

The Water Board was of the opinion that, as the engineer had looked over the site of the proposed second dam on the North Fork of Deep Creek, and had expressed himself as being in favor of the proposition as a whole, it would like to have a meeting with Mr. deWolf and get the matter straightened out. It was pointed out that the time for this project was short because of the danger of frost in the hills. The construction of this dam being tendered for, and the tender of Messrs. Campbell and Watson having been accepted, these men would have to stop work until some method of financing could be arranged. The work of repairing and fixing the main ditch and flume was slated for next spring when conditions would be more favorable for such work.

The members of the Water Board stated that if they had an opportunity of talking over the situation with the engineer, it would be cleared up and the \$500 would be advanced from the Conservation Fund as was originally planned. It was decided to arrange a conference with Mr. deWolf as soon as possible.

There was considerable discussion regarding the amortizing of the 1927-28-29 taxes due the government. It was suggested that the plan of Vernon might be followed—extending the paying of these taxes over a 15 year period. It was decided to discuss this matter also with Mr. deWolf.

The following resolution regarding the protection of the beaver was passed unanimously: That the provincial game warden be again urged to have the destruction of beaver on the Okanagan watershed prohibited, and that Summerland and Penticton be asked to endorse same.

91 HIGHBOY

A remarkably handsome 6-leg cabinet in a rich combination of American Walnut, Pin-Stripe Walnut, highly figured Butte Walnut and Oriental wood, all hand rubbed. The nine tube chassis gives amazing performance. Has Twin Speakers, Shadow Tuning, Tuning Silencer, and new Philco designed High-Efficiency Tubes. Price... \$139.50

A Child can tune with PHILCO... Shadow Tuning

PHILCO Shadow Tuning marks the greatest advance in ease of operation ever invented. It is revolutionary—yet so simple that a child can tune perfectly.

And Shadow Tuning is only one of the wonderful exclusive new features incorporated in Philco. Never before in any one year have so many vital improvements been made. Never before has your dollar purchased so much radio value. Not until you see and hear them can you realize how far these new Philcos have left all other sets behind in value—in appearance—in performance and ease of operation.

See your Philco dealer today. He will arrange terms that remove the last reason for delay.

Miss Campbell's Recipe for Cup Cakes

1/2 cup butter 2 cups pastry flour
1 cup sugar (or 1 1/2 cups)
2 eggs 1/2 cup milk
1/2 teaspoon vanilla 1/2 teaspoon Magic Baking Powder
1/4 teaspoon salt 1 cup milk

Cream butter thoroughly; add sugar a little at a time, beating well. Add yolks of eggs and vanilla; beat well. Sift flour with baking powder and salt, and add alternately with milk, to first mixture. Fold in stiffly beaten egg whites. Bake in greased cup cake tins, or in paper baking cups, in moderate oven at 375° F. about 25 minutes. Serve warm from the oven, sprinkled with powdered sugar. Or cool, and frost the tops. You will find many delicious frosting recipes in the Magic Cook Book.

"Cup Cakes are delicious when made with Magic Baking Powder,"

says Miss Helen Campbell, Director of The Chatelaine Institute

"Good baking goes hand in hand with good materials," Miss Campbell will tell you.

That's why Magic Baking Powder is used and recommended by The Chatelaine Institute. Magic meets all the Institute's rigid requirements of fine quality—repeated tests have proved it absolutely pure, uniform and dependable.

The majority of dietitians and teachers of cookery throughout Canada plan their recipes for Magic. They use it exclusively because they know it gives consistently better results.

And 3 out of 4 Canadian housewives say Magic is their favorite. It outsells all other baking powders combined.

Remember—substitutes are never as good. Do as the experts do. Use Magic Baking Powder.

Free Cook Book—When you bake at home, the new Magic Cook Book will give you dozens of recipes for delicious baked goods. Write to Standard Brands Limited, Fraser Avenue and Liberty Street, Toronto, Ontario.

CARIBOO HUNTERS SHOT MANY MOOSE

Lumby Friends Generously Supplied—Deer Retreating To Higher Slopes At Present

LUMBY, B.C., Oct. 4.—Hunters are back from the Cariboo, and have been generous in supplying their friends with moose steak. The hunting season here is somewhat limited as deer seem to be on the higher slopes just now.

Arthur Quesnel was lucky enough to get a coyote on Monday.

Louis Norris has returned from Rossland, but his travelling companions, Mr. and Mrs. Bonville have proceeded as far as Idaho on a visit to Mr. and Mrs. E. Legume.

Mrs. Jack Smith, of Lavington, was a visitor to Lumby last Friday. A daughter was born to Mr. and Mrs. Fred Hadley last Thursday.

C. Archibald, of Vancouver, arrived on Saturday on a visit to Mr. and Mrs. L. G. Gordon, of Mabel Lake.

At the regular monthly meeting of the Lumby and District Women's Institute, to be held this Wednesday, arrangements will be made to hold a Halloween dance.

An enjoyable dance took place at the Creighton Valley School House on Friday, and a similar one at Mabel Lake on Saturday.

Isaac Deschamps left last week on the return trip by automobile to the Coast, accompanied by his sister, Mrs. J. Genier, and Miss Christine McKenzie.

H. Sigale and the Murphy brothers left on Monday for Clearwater to load out a few car loads of poles for Sigale Co.

Miss Coture, of Vancouver, is visiting Mrs. Alphonse Quesnel and family.

Threshing is about finished throughout the district, and some farmers are busy fall plowing.

Harry had no telephone so Bill got the job

"Yes, I'm starting back to work Monday," Bill was saying. "The good news came by telephone. The boss told me it was a toss-up whether the job would go to Harry or me. But Harry had no telephone, and couldn't be reached. So I was the lucky man."

"And to think I once considered having my telephone taken out. I'm thankful I thought better of it."

The man with a telephone has the best chance of getting a job.

BRITISH GOODS ARE DISPLAYED

Textiles Show Excellent Standard of English, Scotch, and Irish Firms

PENTICTON, B.C., Oct. 3.—A particularly enjoyable party was held at the Golf Club on the afternoon of Friday, Sept. 30. Mrs. Henson was winner of the first prize, a silver salver. Nearly fifty members were present.

A slight ripple from the Imperial Conference was seen on Main Street this week, when a local store placed on view a large display of woollens, linens, and other textiles and garments made in England, Scotland, and Ireland. Such well known names as Jaeger, Horrocks and Wolsey, were well represented and showed an excellence of standard not to be beaten anywhere.

The Anglican Junior W. A. inaugurated the season with a "cinderella" dance at the Ellis Street Hall on Friday. It was well attended.

Mr. Ware, who is holding a week's inter-denominational mission to children in Penticton, gave a brief address at St. Saviour's Anglican Church on Sunday morning, and preached the evening sermon in the United Church. The latter organization is introducing the innovation of a four-minute talk every Sunday by different lay members of the congregation.

On Saturday afternoon an exciting game was played between Mrs. A. A. Swift and Miss Muriel Power for the finals of the ladies' single championship at the Penticton Bowling Club. The game began very evenly, and when ten ends had been played, neither opponent had any advantage over the other. At this point, however, Miss Power fell off and Mrs. Swift piled up a good score, winning the championship and the Allerton cup.

The Tennis Club held a bridge drive of ten tables at the Incola Hotel on the evening of September 29. Mrs. Louis and H. Davies gained first prize, with Mrs. Alec MacNicol and Mr. Wilkins taking second place. Mr. Wilkins, however, being President of the Club, declined to be the recipient of a prize and passed it on to Mrs. Kennedy, who was leader at the one table of Auction bridge. The tennis club is planning a dance at the Incola in the near future.

NEW RESIDENTS ON LITTLE RANCH, MARA

MARA, B.C., Oct. 4.—George Little went to Vernon on Monday where he attended the funeral of his nephew, the late "Gerry" Little, who was well known in Mara and resided here for many years, before going to reside in Vernon.

Mrs. M. Whitford, of Prince George, came in last week by auto, to visit her parents, Mr. and Mrs. H. J. Johnson, and expects to spend the winter months here.

Mr. and Mrs. V. H. Stephens and family have now taken up residence in their new home on the place once known as the C. W. Little ranch. They have rented the Charlesworth Ranch for the past several years.

Mrs. E. A. Robertson spent several days at Siamous last week, visiting her sister, Mrs. F. Woodward.

Mr. and Mrs. V. Witala were visitors to Oyanam on Sunday last, where they visited their daughters the Misses Helvie, Esther, Olga and Vivie Witala.

L. Screen, K. Antilla and E. Robertson returned to Mara last Saturday, after being employed at Vernon and Oyanam for several weeks.

Mr. and Mrs. C. Coell were visitors last Sunday at the home of Mr. and Mrs. Knapp at Grindrod.

Mr. and Mrs. Herman Koelkenbeck returned to their home in Vancouver last Friday after spending several days with their parents, Mr. and Mrs. B. Green here.

Mr. and Mrs. James Bell and George, went to Kamloops last Wednesday, where they attended the Fall Fair. Joe Kinghorn returned to his home at Olanary last Thursday morning, after spending several months here, the guest of James F. Massey, who travelled with him as far as Siamous. Jack Butterworth left for Hilda, Alta., last Tuesday morning, where he has obtained work for the coming winter months.

DUNCAN MAN CAPTURES TWO SNAKES THOUGHT A POISONOUS SPECIE

Suggestion Made That Frogs Travel Through Air And Are Transparent

It is generally conceded that this district has no poisonous native snakes, but two reptiles which he believed were of a poisonous variety were recently killed on Hill 60 by Mr. Joe Moodie, caretaker at the mill, says the Coquitlam Leader, Duncan, V.I.

These snakes were about the size of a gutter snake but black and had a flatish head, wider than the body, down which ran at either side a white key pattern. When he approached these snakes they curled up in a double coil and struck towards him.

One possible explanation is suggested: that the snakes may have escaped from some Hindu snake charmer down the valley.

Regarding the suggestion of frogs travelling through the air and falling with rain, which was made last year, Mr. Moodie declares this to be true. He saw a cloud of them this year, as of locusts, sweeping down the valley towards Southam Station, near where, last year, they swarmed along the road.

When they travel through the air they are quite transparent and their bone structure is visible, Mr. Moodie says. One of them he found on his window sill, two others in a rain barrel, where they could not possibly have jumped.

VISCOUNT PRAISES NICOLA VALLEY AS A CATTLE COUNTRY

Son of the Earl of Peel Enjoys Drive Over Some Famous Ranges

Viscount Clanfield, son of the Earl of Peel, and cousin of "Pen" Goldman, of Nicola, spent a couple of days in the Nicola Valley this week in the course of a tour of Canada and the United States, says the Merritt Herald. He is a principal and owner in a famous English firm of linoleum manufacturers at Lancaster in the north of England, with which firm the Lord Ashton family has been so long and honorably associated. Viscount Clanfield, a fine appearing and upstanding young man with democratic tastes, enjoyed a drive on Tuesday over the range country and into Voght Valley. On their way he and Mr. Goldman called at the local office for a chat.

Viscount Clanfield is one of Britain's young ambassadors of trade who has been cementing and forming agency contacts in all the leading centres of Canada with the view of extending his firm's trade in Canada under the Empire-wide trade development schemes formulated at the Ottawa Conference. While on this continent, Lord Clanfield will also visit a number of principal cities of the United States. He showed keen interest in all he saw in the Nicola Valley during his brief visit.

Viscount Clanfield says his uncle, Major C. S. Goldman, was one of the secretaries to the Royal Commission on Indian Affairs, headed by Sir John Simon, which visited India four times, and which made history by drafting the new constitution of British India empire. He has also travelled widely in other parts of the world.

He was deeply impressed with Vancouver, he believes that is virtually no limit to its possibilities of becoming one of the leading cities of the world. The nearness of the Nicola Valley as a cattle-raising community to Vancouver also seems to him to present splendid opportunities for this district.

He felt the Nicola Valley was only in its infancy compared to what it will become as the population of British Columbia grows. He said in all his travels throughout the world he had never seen a finer range country than in the Nicola Valley.

As Hon. Arthur Peel he succeeded his father, the late Lord Peel, who died as one of the wealthiest men in England, leaving to Lady Peel the enormous estate of nine million pounds, \$45,000,000. Viscount Clanfield, as the only son, will become heir to this fortune.

Williamson's, the linoleum firm owned by the viscount, employs in Lancaster between 3,000 and 4,000 workers. Lord Peel came to Canada some years ago as head of the Empire Parliamentary Association and visited British Columbia, including Kamloops.

OKANAGAN CENTRE INSTITUTE WILL RESUME MEETINGS

Mrs. Cameron, of Kelowna, To Speak On Trip Via Panama Canal

OKANAGAN CENTRE, B.C., Oct. 4.—The Women's Institute will resume meetings this month, the first meeting after the summer recess being scheduled for Thursday, October 13, in the Community Hall. On this occasion the speaker of the afternoon will be Mrs. M. Cameron, of Kelowna, who will speak on "A Trip to England via the Panama Canal."

Miss Ida Glead arrived last Saturday and is staying at the home of Mr. and Mrs. J. Glead.

Miss Mary Williamson who is staying with Mr. and Mrs. G. Long, returned home to Siamous for the week end.

Mrs. Finlayson, of Siamous, is a guest of Mrs. T. Gray for a few days.

The Misses Mae and Vina Turner were here visiting their mother last Sunday.

CALGARY LIVESTOCK

MORE WATER CAN BE STORED STATE SUMMERLAND MEN

Dam Can Be Raised—Protest Against High Rate For Transient Licenses

SUMMERLAND, B.C., Oct. 3.—At the council meeting last week J. R. Campbell and H. Tomlin gave a report of their findings at headwaters where they had been to close the gates. It was their opinion that Dam No. 2 could be raised to store more water.

Ordinary road maintenance work has been started again, particularly on the roads over which fruit is hauled. Repairs to the former School House, now occupied by Mrs. Allen, were authorized.

The council ratified the annual grant of \$75 to the Okanagan Public Health Laboratory at Kelowna.

F. Gartrell and J. M. Landry were granted the use of the old municipal tractor for a few days.

Mrs. Graham and Mrs. Kelly, of Victoria-Gardens, asked for electric light, and this was granted.

The iron work necessary on the reservoir was given to C. Schwas, and the sidewalk in the lower town will be repaired.

Protests were received from Leo Bedford and E. B. Wahl objecting to the new by-law affecting the price of trade licenses to transient peddlers. In future they are to pay \$12.50 every 6 months.

H. Tomlin is estimating the cost of renovating part of the lower Garnett Valley irrigation system, and this system may be changed somewhat.

There was considerable discussion about promiscuous shooting in the orchards. It is an infraction of the Game Act to go on a lot to shoot without permission from the owner.

This is often disregarded with the possibility of serious consequences resulting. The council think, however, that orchardists should post their lots for no shooting if they object to the trespassers; if lots are so posted and the signs disregarded, the constable will then take action.

Badminton Club Officers The Badminton Club has re-organized for its fifteenth season and play will start Monday night in the Ellison Hall. The officers were elected as follows: President, F. A. Miller; Vice President, T. M. Croll; Secretary-Treasurer, Dr. H. McLarty; Assistant Secretary-Treasurer, Miss Zoe Fudge; Committee, Misses J. Paradis and D. Tomlin, E. R. Faudler and Dr. A. W. Vanderburgh. The fees have been lowered this year, and an effort is being made to increase the membership, and the number of playing days.

With the approval of the School Board, and under the Canadian Bureau of Music, Mrs. Lorne Sutherland is organizing singing classes for young children to develop the sense of rhythm, and to reach the rudiments of music. These classes lead up to future singing and piano lessons.

The women members of the Golf Club have started to play off the competition for the cup donated by Dr. F. W. Andrew.

Mr. and Mrs. R. S. Jackson returned to Vancouver Sunday morning.

Mr. and Mrs. W. S. Harris, of Vernon, were week end guests of Mr. and Mrs. A. G. Duncan at the Bank House.

Mr. and Mrs. W. C. Kelley are spending some time in Vancouver.

T. Harris and Gordon Nixon have returned to U.B.C.

Mr. and Mrs. Bloomfield went to the Coast last Thursday.

Eric Randall, of Trail, is a guest at the home of Rev. H. and Mrs. Solly.

Lower Than Average Rainfall The rainfall for September as recorded at the Experimental Station was .60 or about 3/5 inch. The 16-year average was .76.

In the ladies' singles which were played off recently at the bowling green, Mrs. E. Jenkinson won from Mrs. Dave Taylor in the semi-finals, and in the finals against Mrs. C. E. McCutcheon. Mrs. Jenkinson was again the winner.

W. C. W. Fosbery, A. Moyes and J. Tait attended the official closing of the bowling green in Vernon last Thursday. They played on different rinks, and Mr. Moyes brought home a silver rose-bowl.

Johnathans will be in full swing this week, and there will be some shipments to New Zealand.

The Summerland growers have been warned to watch for manifestations of codling moth while they are picking, and to report it, that it may be checked up.

J. Tait, District Field Inspector will attend a meeting of District Agriculturists at Kelowna on Monday. This year's spraying experiments and operations will be gone over, and the program for 1933 prepared.

Car Overturns When a coupe driven by F. Dickenson was approaching the Peach Orchard Road on Friday night, it went off the road and overturned. The four occupants were uninjured. T. Ramsay, driving the truck which takes the packers home, stopped to see if he could help, and C. Huddleston directly behind, smashed into the back of the truck, breaking his lights, and badly damaging his radiator and fenders.

MISSIONARY SPEAKS ON LIFE IN CHINA

TRINITY VALLEY, B.C., Oct. 1.—The Misses Bowes and Brooke held a very interesting service at the Trinity Valley School House last Sunday afternoon. Miss Brooke gave an address on "Life."

The speaker gave several interesting glimpses of missionary life in China, and spoke highly of the devotion and loyalty of the Chinese, when won over to the Christian faith.

Miss Bowes gave the children a short address. The latter lady is a University graduate, who has recently taken up mission work.

G. K. Hembling was away visiting relatives at Oyama during the early part of the week.

The school attendance has been low lately, owing to an epidemic of chicken pox among some of the children.

H. Walker and the Misses Walker, of Enderby, were up visiting friends in this valley lately.

ARMSTRONG READY FOR CONVENTION VALLEY TEACHERS

Plans Prepared For Three-Day Gathering—Institute Aids In Programme

ARMSTRONG, B.C., Oct. 3.—Principal Aldworth was present at the meeting of the Women's Institute on Wednesday afternoon to bring two matters before the members. One of these was the Okanagan Valley Teachers' Convention, which is to be held in the city from October 27 to 29, and in connection with which they desired the use of the Recreation Hall, which had already been secured by the Institute for the night of October 28, for their annual dinner, the "Hallowe'en" dance. He also suggested that the Institute might be of assistance to the convention in some details of its programme.

In the course of discussion several members voiced the pleasure they felt in uniting to welcome the convention to Armstrong, and it was agreed to hold the Hallowe'en dance a week earlier than usual in order to clear the way for it.

Mr. Aldworth then put before the Institute a proposal now under consideration for the co-ordination of all the various relief agencies in Armstrong, which was likely to be especially needed during the coming winter to ensure that all moneys so spent should be used to the best possible advantage, without duplication of assistance in any case. For this end it had been thought that a community chest might be provided through which all such matters would be dealt with. The consideration of this was postponed.

The meeting received a report upon the holding by the Institute of a stall at the Interior Provincial Exhibition, at which a sum of over \$30 had been raised for the benefit of the workers at Vancouver under the Canadian Institution for the Blind, besides the taking of further orders. Satisfaction was expressed with this result.

The manager of the Canada Pacific Exhibition at Vancouver wrote asking for return of the challenge cup won by the local judging team of girls at the last exhibition, and expressing his regret that the competition had unavoidably been suspended this year, but hoping that it would be renewed. The meeting was disposed to think that the branch should have been allowed to retain the cup until the next competition for it was arranged for, but decided not to press the point. Arrangements were made for the repetition by Major Kerr, of the Salvation Army, of his Klondike lecture, on the joint behalf of the funds of the Army and of the Institute.

Inspect Flour Mill
The members present then paid a visit to the Inland Flour Mill, where they were shown around the works by Mr. Howver, and the whole process of transforming local wheat into O.K. flour was described, greatly to their interest. Returning to the Foresters' Hall, tea was served by the circle for the quarter.

The monthly report of the Public Librarian shows for the first time in a very long while a slight falling off in the issues as compared with those in September of last year, a matter for which the rival interests of the Interior Exhibition, and the delightful Fall weather, are no doubt largely responsible. The issues of fiction were 684 and of non-fiction 132, as compared with 741 and 173 respectively. There were 210 magazines issued as compared with 220. The number of visitors was 639, against 724. The Library Board is much indebted to Mrs. Etter for her gift of 36 books, and also to A. D. Renault for two more in addition to a number which he had sent in previously, an appreciation which they are sure is shared by the readers.

Co-operation is World Need
"The Way to Recovery," a volume on popular economics for the hour, written by the famous thinker and writer, Sir George Paish, which was recently acquired by the Public Library, formed in conjunction with the scripture parable of the healing of the palsied man, the basis of a sermon delivered at the United Church on Sunday evening, by the Rev. S. T. Galbraith. In both of these, he pointed out, the necessity of co-operation in healing activities was made prominent, the co-operation of the four men without whose joint efforts and sick man could not have been lowered from the house-top to the feet of the Master, and that co-operation, both among communities and nations, by which only can relief from the present world distress be secured. Sir George in his book makes it plain that no nation can grow really rich by the impoverishment of another; and that the effort of one country to prosper by exploiting any other is bound to be disastrous in the long run to both. There must be co-operation all down the scale if permanent improvement in our conditions was to be achieved.

A talk on meteorology was given on

BLIND PETER IS CALLED TO REST

Well Known Indian Passes Away In Armstrong Hospital—Funeral Well Attended

ENDERBY, B.C., Oct. 3.—On Monday last "Blind Peter," of the Indian Reserve, passed away in the Armstrong hospital. Peter was for a long time a well known figure on the city streets and on the road to the reserve. Always alone and feeling his way with his staff, and he was so grateful for any little act of kindness shown him, or word of cheer spoken to him. His funeral was held on Thursday and was largely attended.

A. D. Glen left last week for Fintny.

Missionary Welcomed
A large number of ladies gathered at the home of Mrs. Netterfield on Thursday afternoon to meet Miss Brooks, who has lately returned from China, where she spent twenty years engaged in Mission work. Besides giving a most interesting address on her work there, Miss Brooks sang several songs, both in English and Chinese, playing her own accompaniment on her auto-harp. At the close of her address, her sister, Miss Brooks, spoke of her mission work which she was carrying on in the Peace River district.

Joseph Stonehouse, who was brought to the hospital here a short time ago, is showing marked improvement in his condition.

G. Burton left last week for the Hope-Princeton Country, where he intends to spend the winter prospecting.

Mrs. T. D. Jeffers is visiting friends at Hualar this week.

Another patient in the Enderby hospital is Theo. Baxter, who recently suffered another stroke.

TIGER THE VILLAIN OF 'BRING 'EM BACK ALIVE'

Frank Buck, author, adventurer and wild animal maestro whose camera record his own book "Bring 'Em Back Alive," is the latest screen sensation, claims that the man-eating tiger who is the villain of his jungle drama will make all the hard-working badmen of the movies green with envy when they see him fight his way through the EKO-Radio picture made by the Van Beuren Expedition.

This ferocious jungle beast whose sole concern is today's dinner, acts and fights with rare unconcern. He wrote the piece, plays the star part, and directs himself. All his lines are impromptu, with no regard for the cameraman's feelings. During the course of the picture he lists among his adversaries a giant crusher python, a twenty-foot crocodile, a neat but not gaudy black panther and a bull water buffalo.

Before he was run down and brought to book by Buck and his assistants he has attempted homicide four times, suicide twice and murder, mayhem and highway robbery too many times to try to keep track of.

"Bring 'Em Back Alive," directed by Clyde E. Elliott, comes to the Empress Theatre on Friday and Saturday, October 7 and 8.

HOLDS DYNAMITE UNDER HIS CHIN, IGNITES CAP

Elderly Man At Cold Creek, Near Kamloops, Takes His Own Life

Reported to have been in poor health for some time, John Urrich, an elderly man of Cold Creek took his life Wednesday afternoon by holding a stick of dynamite under his chin and igniting a cap with the result that he blew the top of his head off, says the Kamloops Sentinel.

Little is known of the deceased except that he was a farmer of that section of the Kamloops district, and a son about 17 miles from the city in the Cold Creek district.

All funeral details were arranged by neighbors and the deceased was buried. It is reported, near his home.

Friday afternoon to the members of the geography class at the High School, who came up to the station to look at the recording instruments. Mr. Knight Harris explained over two hundred persons throughout B.C. are taking weather observations, under the auspices of the Dominion Government and with instruments supplied by it. A very much larger number was similarly engaged throughout Canada. The cost of this was relatively small, most of the work being done voluntarily, and the results were at the general service of the public, enabling, for instance, the Provincial Department of Agriculture to publish annual reports upon the weather of the province. Many instances were given showing the large amount of interest that might be derived from a study of the figures thus published.

In addition to the record of prizes awarded under the Horse Division at the Interior Provincial Exhibition, as recorded in last week's issue, should be mentioned the following:

Grade Percheron, heavy draft: 1. M. H. D. Hurry, Enderby; 2. A. M. Stewart, Canoe.

for NEURALGIA
A good application of Minard's Liniment, according to directions, will give you relief. You'll find it so.

Don't run up a plumber's bill every time your drain pipes clog. Fix them yourself... this easy, workless way. Just sprinkle Gillett's Pure Flake Lye down your drains and toilet bowls each week. Use it full strength, for Gillett's Pure Flake Lye will not in any way harm the finish of enamelled sinks or bathtubs.

Grease and dirt dissolve like magic. Germs are killed. Odors banished. Your drains run free and clear. And... there's no plumber's bill afterward!

Tell your grocer it's Gillett's Pure Flake Lye you want. This powerful cleanser and disinfectant saves hours of scrubbing. Try a tin.

Reasons For Caution

Editor The Vernon News, Sir:

With reference to the editorial in your issue of Sept. 22 headed "To Finance Horticultural Council," I heartily agree with you that "The services rendered though not always recognized are of the utmost value to the growers and to the industry" and I have no doubt that with the interests of the growers properly safeguarded the Council will continue to be of value, but for growers to endorse any proposal, which emanates from the Horticultural Council or from the "fertile brain of Capt. Burrows" without taking time for serious and deliberate consideration, simply means increasing the burden which many growers find almost beyond endurance now.

That the proposal to have inspection made compulsory and have part of the fees returned to the industry will meet with general approval, but that the whole of the money so obtained should be handed over to the Horticultural Council to do as they see fit, will not I think gain much support from the growers of this Province.

To emphasize the need for caution it may be as well to give two fairly recent instances of how the interests of the growers and those of the Horticultural Council are not always identical. A year or two ago a move was made to have the Sales on Consignment Act put into effect in Alberta, Saskatchewan and Manitoba. I understand the act was passed in Saskatchewan but not in Alberta or Manitoba.

At the Kelowna convention of the P.F.G.A. Capt. Burrows said—he was not to blame for the failure of the Act to pass in those two provinces. It may be coincidence only that after a visit to the west, made by Capt. Burrows, the Government of Saskatchewan decided that an order in council would be necessary to put the act in effect and that Alberta and Manitoba dropped it.

I know of a number of growers who are strongly of the opinion that Capt. Burrows had a lot to do with the action of the two Governments.

The second instance is the attempt of the Council to have what was called "The Perishable Agricultural Products Act" passed at the last session of the Federal House. It is the opinion of practically every grower who read that Act that it was useless as far as affording any protection to the growers was concerned, and that any penalties for failure to comply with its provisions were farcical.

I think it quite safe to say that growers acting as a unit will have sufficient influence with Ottawa to put a stop to anything which will be prejudicial to their interests. That is another way of saying it together so that when we want something done or do not want it done, we shall have the necessary punch to put it over.

Professional men, tradesmen, railway men, clerks and laborers, all are organized for their own protection but not fruit growers. Why? Are we too intelligent or the reverse?

Yours truly,
C. E. Atkin.
R.R. 1, Kelowna, B.C., Oct. 3, 1932.

Is it Good Business?

Editor The Vernon News, Sir:

Will you kindly insert the following:

Mr. Jones at a meeting at Summerland on Sept. 23 said: "In regard to what has been called the Kelowna-Naramata Highway there is not, and has never been any intention of continuing the road past the McKay ranch, and the camp would be closed on Saturday, with the travelling finished by local residents. The width specified was 16 ft., the cost \$15,000, of which the Dominion Government pays \$5,000."

Quite an admission Mr. Jones. Having viewed this great work in the wilderness, and the magnificent camp, on a concrete foundation, we take it with a little salt, the width we fear is also under-estimated. Perhaps an explanation of the economy of spending \$15,000 on a one man road to a dead end during this period of financial stress might be in order, and of interest to the Province and the Dominion; after reading "Jones on Economy" for a long period, it is a little hard to understand.

It would be interesting to know how many tons of explosive were used. A Summerland resident remarked that it reminded him of the Morning Date in France.

We might also learn how long the steam shovel was in operation. This mere bagatelle of \$15,000 would have gone far on existing highways, which are in a disgraceful state, and will be well nigh impassable by winter. It would have made the road north of the ferry on the West side of Okanagan Lake safe for travel.

In Kelowna, on Sept. 26 Mr. Jones says: "What we want is good sound common sense, people who understand the conditions and who will work for the good of the country." Just how the Naramata construction benefits the country is rather obscure.

Mr. Jones desires a union government, but as he is quoted as saying that "it had been his experience that men in what is known as big business were often poor leaders," he apparently would not approve of them in a government. Surely Mr. Jones does not still pin his faith to politicians; and view them as desirable material for our next government; if so we trust he is alone in this belief.

Yours truly,
H. L. Seelye,
Okanagan Centre, B.C., Oct. 1, 1932.

Find Beauty

in the Luxury Soap of the World

Satin-like skins have been committed to the care of Yardley's Old English Lavender Soap, since 1770. It is because this lovely soap cleanses and refines as can no soap less perfect in soothing purity. A generous lather leaves your skin glowing—and faintly exuding that most bewitching of perfumes, the Yardley Lavender. Besides, it lasts longer than you expect a soap to last—in three popular sizes—Guest size 20c, a cake, Toilet size 35c, a cake, three for \$1.00, and Bath size 50c, a cake, at all good drug and department stores.

YARDLEY, LONDON—Toronto, New York, Paris

YARDLEY
OLD ENGLISH LAVENDER SOAP

Yardley's Complexion Powder is a powder fine as mist that heightens natural loveliness—\$1.00 per box; in compact at \$1.00—refills 50c.

The Week In Review

The resignation of Philip Snowden, Sir Herbert Samuel, and Sir Archibald Sinclair, three outstanding free trade cabinet ministers, over the Ottawa pact, shook British politics last week. Eight junior ministers also tendered their resignations.

Viscount Snowden, severing forty years' close association with Prime Minister Ramsay MacDonald, was outspoken in denunciation of the Ottawa agreements. "I am convinced," he said, "that the tariffs and Imperialist policies which the Tories are carrying through are more dangerous in their permanent effect than the crisis of last year which was temporary and yielded to drastic treatment."

With new additions the cabinet now numbers thirteen Conservatives, three Liberals, and three nominal members of the Labor party.

Reprisals for assassination of five prominent Cuban politicians last week, executed in the style favored by American gunmen, were prevented by the institution of martial law. The shootings were the worst in Havana's turbulent political history.

At least 40 were estimated to be dead as a result of the cloudburst which swept the Tehachapi Mountains in lower California Friday night. It is said that a forty foot wall of water swept through the mountain railway pass, carrying a train and several railway buildings before it.

Three men, the only survivors of a crew of 35 of the ill-fated freighter, Nevada, were safely aboard a rescue vessel in the north Pacific last Thursday night, saved from the death which had overtaken their companions when the Japan-bound freighter which left Portland on September 16 broke up on the Aleutian Islands.

After a 20-day battle, the longest and bloodiest in the history of the fifty-year dispute over the Gran Chaco territory, the Paraguayan Government announced today its assault troops had occupied Fort Boqueron. Although this fort is no more important than a score of other wilderness outposts, even going unrecognized by most map makers until Bolivia captured it from Paraguay last August, its recapture has been one of the great goals of the Paraguayan forces.

Governor Berkeley of Puerto Rico, announced last week that Tuesday's hurricane killed 212 persons, injured 2,000 and left 245,000 homeless. This estimate was based on additional reports that reached the capital from the stricken areas, and it was added that half of the homeless were only temporarily so, but that the other half had nothing whatever to start on.

A board of inquiry is slowly unfolding the mystery which envelops the loss of nearly \$1,000,000 in endowment funds of the University of Manitoba. Less than five hours' investigation by both houses of the legislature last week revealed that books of the university had not been completely audited in the last eight years; that no report had been tendered to the condition of investments; that the board of governors had failed to comply with statutes of the institution; and that John A. Macbray acted as chairman of the governors and bursar, contrary to the University Act. The university funds disappeared since Macbray was appointed honorary bursar in 1916. At present, he is serving a seven-year sentence in the penitentiary for stealing \$500,000 from the university.

An increase of 17 per cent. in messages carried during the last two weeks of August, compared with the first two weeks of the same month, is reported by the Canadian National. Telegraph communications are regarded as the "nerve centre of commerce" and the report is taken as being a sign of improvement.

The steamer *Erigo*, of London, England, which cleared from Churchill on September 25 with a cargo of grain, struck an iceberg in the middle of Hudson Straits at 4:20 a.m. Saturday and sank in three hours. The department of marine was advised of the sinking shortly before noon. The crew of thirty took to boats and were picked up.

Considerable interest was manifested in British Columbia police circles on Saturday when it was announced that William Bagley, who escaped from a British Columbia prison in 1928, had been captured in Ontario, Canada. Arraigned before the municipal court there he was faced with seven different charges of robbery, and it is understood that he will serve penitentiary terms, if any, in California, before being turned over to the Canadian authorities.

The newly created state of Manchukuo apparently was helpless last week against an uprising in far northwestern Manchuria, after the insurgent Chinese general, Shi Ping-Wen, had seized the key town of Manchukuo on the Manchurian-Russian border. An undetermined number of Manchukuo troops, destroyed many, were killed when General Shi's artillery destroyed four barracks, and apparently seized the town together with other nearby villages.

Two men reported last Thursday from Tuktooana, an outpost 114 miles north of Anchorage, Alaska, that they had found what they believed to be the missing Woodley plane, while flying.

Five Roses Flour

At New Lower Price

"FIVE ROSES" FLOUR is the highest grade flour milled by Lake of the Woods Milling Co. Only selected wheat used, makes more and better bread, also makes delicious cakes and pastries. A flour of uniform creamy whiteness. Remember you cannot buy "Five Roses" quality under any other brand. Our store is the only store in Vernon selling this famous "Five Roses" Brand Flour. Sold only in white cotton bags—

B.C. APPLE GROWERS HAVE PROGRESSED WITH MARKETING
In More Satisfactory Manner Than Producers of Other Commodities
Despite what they themselves may think of their plight, British Columbia apple growers have brought the problem of distribution and marketing to a more satisfactory status than the producers of any other commodity, according to Thomas Wrayling, member of the press gallery at Ottawa, who addressed a record attendance of the members of the men's and women's Canadian Clubs at the National ballroom here Wednesday evening.

SUDDEN CHECK IN MOVEMENTS OF BOX CAR TRAVELLERS
Chief of Police Clarke States That Free Movement Has Been Halted
Hardly any transients are attempting to pass through the valley as free tourists on the trains states Chief Clarke. Part of the reason for this is the fact that they were stopped at the Alberta border Saturday morning when the governments implemented their announcements that all police would co-operate to bring an end to this free transit which has obtained for a long time. Another factor is of course the difference in harvesting conditions on the prairies as compared to last year, more men being absorbed into the labor market.
